NUMBER 17

OIL OPERATIONS REACH FIRST ANNIVERSARY

Productive Formation Is Being Reached After Twelve Months Of Persistent Effort

A year ago, on November 27th, "spudding in" commenced drilling operations by the Okanagan Oil & Gas Co., Ltd., at Kelowna Oil Well No. 1, situated about nine miles south-east of Kelowna, in the East Kelowna district, and since then the work has been carried on with dogged courage by the promoters of the enterprise in the face of many obstacles, mechanical and financial, such as usually beset the path of adventurers in a new field. Within slightly less than a year, or, to be exact, on November 23rd, the bore had attained a depth of 2,225 feet and is now in cretaceous marine limestone, with every indication that the formation is the capping over the productive area.

Damned at the outset by faint hearts and carping critics and by the theoretical conjectures of a Government geologist, the work of sinking has confuted the statements of the latter that that any oil that might have been present in certain limited sedimentary areas had been squeezed out in bygone ages under tremendous pressure and heat. Since reaching bedrock, the drill has passed for nearly two thousand feet through beds of shale, sandstone and lime, and there has been no trace of any igneous intrusion. Fossils have been found and during the last few hundred feet gas and bubbles of oil have been evident in increasing quantity, indicating approach to the petroliferous stratum.

Intense interest was taken throughout the Okanagan in the commencement of operations, the initial well being witnessed by a large gathering, many of whom subsequently became shareholders in the enterprise and have been consistently its loyal supporters. It is highly to the credit of the promoters of the undertaking that they have not used catch-penny arguments in soliciting stock subscriptions, but they have emphasized all along that while there could be no absolute certainty in anything so speculative as the development of a new oil field, the supreme importance to the district of making a thorough test of its oil and gas possibilities superficially evident was ample warrant for any one interested in its progress and development to assist by investment to moderate extent within his means. Their arguments have proved sufficiently convincing to induce some three hundred and fifty people in the Okanagan to become shareholders. The average amounts held are comparatively small, so that should the enterprise by any chance prove a failure, no one is going to suffer any material loss except the promoters, who have themselves invested largely and have given their time and persistent effort to the work in the face of many discouragements. With such hopeful indications of production being near, it would be simply a disaster if the support accorded hitherto is not continued until it can be demonstrated whether or not the Okanagan oil field is to be a profitable one.

Production of oil or gas or both would mean so much to the Okanagan that the possibilities are almost too great for the mind to grasp. Besides the provision of cheap power and a large reduction in the cost of motor fuel, which would make, in turn, for cheapening the cost of pumping for irrigation purposes, the greatest need of the Okanagan would be met in considerable measure by the establishment of an industry with a round-the-year payroll. Even the modest pioneer undertaking of the Okanagan Oil & Gas Co. was responsible for a payroll of some \$30,000 during the past year, which should give some indication of what development on a large scale would entail.

Petroleum As A Natural Asset

In this connection, the Washington Oil World, of Seattle, says: "The Pacific Northwest's greatest asset is probably her petroleum resources. Long undeveloped, the time has now come when through the failure of other of our industries to sustain us, we must turn aside the scepticism induced by non-information and tell the world of this great sleeping giant, awaiting proper application of thought to rouse itself and bring to us that much needed prosperity. "If the world knew of our possibilities of petroleum production, capital and energy, men and dollars would be making a trek for this region. We have been too content to listen to the insidious propaganda issued by selfish interests to the effect that we have no petroleum possibilities. "We have overlooked the scores of surveys made by reputable engineers and geologists. "We forget the discovery of a gas field in Benton County, Washington, now producing upwards of eleven million cubic feet of gas daily which is being piped to four communities in the Yakima Valley. "We miss up the remarkable evidence indicating petroleum production in the innumerable seeps—the gas vents—the proper structural conditions. "We do not realize that the few poor attempts of the past to reach production were foredoomed to failure because of inadequate finance, technical

(Continued on page 6)

LITTLE MOVEMENT IN APPLE MARKET

But Balance Of Crop Is Expected To Sell Without Difficulty

The apple movement remains slow. Jobbers, wishing to keep their stocks low until the year-end, are not buying heavily, but Okanagan shippers are confident that the balance of the 1931 crop will eventually be moved with little difficulty. It is estimated that there are from 600 to 650 cars still left in the valley. Since the last advance in prices about three weeks ago, Ontario and Nova Scotia shippers have invaded the prairie markets and this, naturally, has had some effect on British Columbia. Ontario has been benefitting by the Winnipeg market and has also found some business at Kelowna and far west as Calgary. It is reported that a car of Nova Scotia apples found sale in Edmonton. While the recent advance in price of B.C. apples permitted these shipments, it is not feared they will seriously affect the British Columbia producer.

Little comment has been made upon Great Britain's decision to impose a preferential tariff on fresh fruits, giving exemption to the Canadian product. The rates of duty have not yet been announced, and the feeling is in some quarters that they will be very low. This remains to be seen. In any case, they will be of benefit.

In the United States apples are selling at a much lower figure than Okanagan shippers are obtaining—in some cases, fifty per cent less. American ones, however, are enjoying a ready sale at good prices.

The Canadian onion market remains firm at \$40 the ton, a satisfactory figure.

DAIRYMEN PROTEST DUMPING OF BUTTER

North Okanagan Farmers Make Complaint To Ottawa

On Friday last, at a meeting of dairymen of the North Okanagan, held in City Hall at Armstrong, a resolution was drafted for dispatch to the Minister of Agriculture at Ottawa, protesting against the dumping of unmarked third grade Alberta butter into the Okanagan.

It was held by the dairymen that the continued dumping of butter of inferior quality would tend to ruin the industry of the Okanagan, and they maintained that first grade butter, such as is made by the Okanagan creameries, was now priced within the reach of every consumer. It was also alleged that consumers did not know that they were buying third grade butter made in Alberta.

Mr. Ross Lockhart, President of the Armstrong Jersey Breeders' Association, stated four hundred farmers would sign a petition to prevent the dumping of unmarked third grade butter by prairie creameries.

It was unanimously decided to back the application of Mr. W. T. Hunter for the position of field man for the Jersey Breeders' Association, and every farmer present signed a petition to the Canadian Jersey Club at Ottawa, requesting that he be engaged for the work.

RACKET OVER RELIEF WORK IN BURNABY

VANCOUVER, Dec. 3.—Relief work in Burnaby Municipality was halted today upon instructions from Victoria.

M. H. McGeough, Dominion Government Relief Supervisor, charges that of 1,700 men on Burnaby relief, only two hundred were investigated and of these one hundred were proven not to be entitled to relief.

Reeve W. A. Pritchard, charging politics, flatly denies that the relief system is being abused, and declares that some irresponsible person has been sending misinformation to Victoria.

"When the facts come out we will see the nigger in the woodpile," he said, "and I am just in the humour to see that no nitwit ward heelers put anything over on Burnaby."

TESTATOR FAVOURED EUGENIC MARRIAGE

HAMILTON, Ont., Dec. 3.—Although the will of the late W. G. Walton provides for creation of a \$200,000 trust fund to be used to encourage eugenic marriages, it is doubtful whether the trustees will ever be able to carry out its terms. It provides that residents of Hamilton and Wentworth County wishing to marry could enroll for "prizes," providing a qualified doctor declared applicants to be 99 per cent perfect, both physically and mentally. Should those enrolled become the parents of a child 99 per cent perfect, they would be entitled to a grant of \$500 when the child reached the age of twelve, and at its twenty-first birthday another like sum would be paid.

POLITICS BRISK IN COLUMBIA RIDING

GOLDEN, Dec. 3.—G. S. Pearson, M.L.A. for Nanaimo, addressed a meeting here last night in the interests of Thomas King, Liberal candidate in the by-election in this constituency. He attacked the administration of the Talmie government.

The Columbia riding is a Mecca for politicians at present. Conservative speakers billed for next week include Bruhn, McKenzie, R. L. Maitland and J. W. Berry, with the possibility of H. D. Talmie.

THREE BURNED BY GASOLINE EXPLOSION

Transients Suffer Painful Injuries By Unwitting Use Of Motor Fuel To Light Fire

Three men, transient residents, were rushed to the Kelowna General Hospital on Tuesday morning, at 8.30 o'clock, suffering with severe burns about the body, following explosion of a three-gallon can of gasoline with which they attempted to light a fire in the stove of the camp in which they were living at Manhattan Beach. The injured are Kenneth Kane, aged 40, James Sharp, aged 30, and Tom Grieve, aged 19. Kane, the most badly burned, died about 11 o'clock, with the other two men, is making satisfactory progress in hospital.

The explosion, audible about a quarter of a mile away, occurred in the camp or cook house used for picnic purposes adjacent to Mrs. D. W. Sutherland's lawn, in which the men had been living for a short time. This little building, which adjoined the larger pavilion, and contents consisting of a bed, kitchen utensils and a stove, were destroyed by fire, but the Fire Brigade, in response to an alarm, saved the pavilion with little difficulty. The loss is estimated at \$75. No insurance was carried by Mrs. Sutherland, owner of the property.

Apparently, the men believed that the gasoline they used was kerosene. The three-gallon can was left in the camp by Dr. Tuckey, who was on his motor launch near there for the winter. According to reports, one of the men found the can on Tuesday morning and, while he poured some of its contents into the stove, another lighted a match. The explosion was instantaneous, covering the clothing of the men with gasoline and flames and blowing out the front end of the stove as well as a few boards from the walls of the building. They got out just in time to escape fatal burns. The ambulance was called and the men were taken to the hospital.

The building was quickly enveloped in flames, soon controlled by the Brigade.

ANOTHER INCENDIARY OUTRAGE AT GRAND FORKS

GRAND FORKS, Dec. 3.—Indignation flared here last night at what citizens termed the "latest outrage," the complete destruction by fire of the Canadian Pacific Railway's big coal chute along with 150 tons of coal stored on the break is attributed to the fanatical Doukhobor faction.

EFFORTS FAIL TO AID DISTRESSED STEAMER

NEWHAVEN, England, Dec. 3.—The Channel steamer Versailles, bound from Dieppe, with twenty-eight passengers, sent out distress signals today, stating that she was drifting ten miles from the British coast in a fierce gale. A tug went to her assistance but had to return here when the storm smashed her head glass and injured one member of her crew.

RAILWAYS MAKE WAGE CUT RETROACTIVE

MONTREAL, Dec. 3.—Both of the principal railway systems notified representatives of the unions concerned this afternoon that, in accordance with the finding of the Conciliation Board, a reduction of ten per cent in wages will be made as from November 15th. The representatives of the men immediately protested to the Minister of Labour.

MAHATMA GANDHI CONFINED TO BED

LONDON, Dec. 3.—Mahatma Gandhi, Indian Nationalist leader, who has braved the chill, damp and fog of London's weather for the past week in his scanty costume, was in bed today with a cold and a temperature, exhausted from his labours at the round table conference. He had intended leaving London on Saturday.

PRINCE OF WALES HAS ATTACK OF MALARIA

LONDON, Dec. 3.—The Prince of Wales, who was stricken yesterday with a chill and confined to his residence, is suffering from malaria, the Daily Mail quotes Sir Stanley Hewitt, Prince's physician, saying today. The Prince suffered a mild attack of malaria last March while hunting in Africa and was obliged to return to Nairobi, where he quickly recovered.

BRITISH MILLERS OPPOSE WHEAT QUOTA

LONDON, Dec. 3.—Representatives of the British flour milling industry suggested yesterday to Sir John Gilmour, Minister of Agriculture, a general tariff of four shillings a quarter (eight bushels) on imported wheat. The Daily Express says that coupled with this was the suggestion of a two shilling preference on wheat from Canada or other Dominions. The millers argued against the Government's proposed wheat quota scheme, contending that it would disorganize trade.

GLENMORE F. G. A. DISCUSSES UNION WITH B.C.F.G.A.

Division Of Opinion Prevents Definite Decision

(Contributed) At the annual meeting of the Glenmore Fruit Growers' Association, which was held in the School House, on Thursday evening, November 26th, Mr. C. E. Atkin was elected President for the ensuing year, Messrs. Hume, Marshall and Henderson became Vice-Presidents and Mr. E. Snowsall succeeded to the secretaryship.

A general discussion took place on the question whether the Glenmore Association should become a unit of the B. C. Fruit Growers' Association.

Mr. Snowsall, who introduced the subject laid down two conditions: that only growers should be members of the B.C.F.G.A., and that only those not connected with the packing industry could hold office.

After most of the thirty-two growers present had voiced their opinions, the chairman asked Mr. R. H. MacDonald, President of the B.C.F.G.A., to address the meeting.

Mr. MacDonald said that the Association always worked in the interests of the growers, and while the membership was not confined to growers alone, only growers had the privilege of voting. He went on to tell of his work in maintaining fair market values on fruit for duty purposes, and coming to the break in prices this year, he said he had attended all but two of the meetings of the Shippers' Council and he considered that a large percentage of the shippers had done all that was possible to stabilize prices. He claimed that a strong growers' organization could have prevented the break in prices which took place.

Questioned by Mr. Pearson, Mr. MacDonald suggested that growers should stop deliveries to packing houses which undercut prices.

No More Marketing Plans For B.C.F.G.A.

Mr. Atkin, speaking as a director of the B.C.F.G.A., made the important announcement that the Association would not sponsor in future any marketing plan.

Mr. Corner and Mr. Clarke expressed opposition to amalgamation unless the B.C.F.G.A. and the Independent Growers' Association first combined. A vote at this point showed the meeting to be divided about fifty-fifty, and adjournment took place without a definite decision being reached.

TRAIN PROPOSED FROM KELOWNA TO VANCOUVER

Board Of Trade Urges C.N.R. To Provide Passenger Service From Okanagan To Coast

When Mr. E. T. Chappell, General Superintendent for B.C. and General Canadian National Railways officials visited Kelowna on November 15th, they discussed with several members of the Board of Trade executive the radical changes in the passenger service on the Okanagan branch which were to be put into effect on November 23rd.

After hearing the explanations offered for the reduction of service—principally on account of the urgent need of economy—the executive decided to take no action at that time but to wait for further information and to witness the results of the change. A week of the new service was sufficient to convince the executive that some material improvement in it was absolutely necessary, so a meeting was held at which it was decided to present certain points to Mr. Chappell for serious consideration, copies of the letter to be sent to the Boards of Trade of other public bodies at Vernon, Armstrong, Grand Prairie, Falkland, Kamloops, (Continued on page 5)

DEMOLITION OF R-100 NOW UNDER WAY

CARDINGTON, England, Dec. 3.—Sledge hammers banged against the framework of the big dirigible R-100 today as twenty workmen began to carry out the orders of the Government to scrap the ship in order to save money. When their work is a little further advanced a steam roller will run over parts of the frame to flatten them. Eventually it is expected that scrap metal dealers who have bought the skeleton of the airship will turn some of it into souvenirs—such as ash trays.

MURDOCK DEPRECATES TALK OF RAILWAY STRIKE

MONTREAL, Dec. 3.—"Anybody who talks in that strain these days has not followed recent trends in labour disputes," the period of the iron fist is buried," stated Hon. James Murdock, member of the Senate and Vice-President of the Brotherhood of Railway Trainmen, last night when asked if there was any possibility of a strike in connection with the majority award of the Board of Conciliation proposing a ten per cent cut in the wages of railway men.

The union have called for a vote of the men, returnable December 15th, on whether or not they wish to accept the cut.

ACTIVITIES OF CANADIAN LEGION

Provincial Secretary Gives Members Of Kelowna Branch Interesting Outline Of Work

A special meeting of the Kelowna Branch of the Canadian Legion, British Empire Service League, was held in the Legion building on Ellis Street on Tuesday night, so as to give all ex-service men, whether members of the Legion or not, an opportunity to hear a talk by the Provincial Secretary of the Legion, Comrade R. Macnicol, of Vancouver, upon the work carried on by the Dominion and Provincial Commands. The assembly hall was well filled and the speaker received an attentive and appreciative hearing.

After formal reading of minutes, other business was dispensed with and President Gibb briefly introduced Comrade Macnicol.

In opening, the speaker remarked upon the great improvement effected by occupancy of the new building, which was not in existence when he had last visited the Kelowna Branch, and he congratulated the Branch upon the very suitable manner in which the premises had been designed for the purpose.

It was nearly four years since he had been in Kelowna, continued Mr. Macnicol, and during that period great changes had occurred, the Legion now being a national organization which had absorbed the old G.W.V.A. and other veterans' societies, principally as the result of the visit of the late Earl Haig to Canada in 1925, whose splendid work had been the means of bringing together most of the associations. There only remained practically three outside the Legion, including the Amputation Association, the Army and Navy Veterans and the Pensioners.

The first and last named were special organizations which were in no sense in opposition to the Legion but worked in harmony with it, but it might be wondered why the Army and Navy Veterans did not amalgamate, as their aims should be identical. The Legion was quite willing to do so, but the conditions laid down by the A. and N. executive were so arbitrary that it was impossible to agree to them.

The Legion had now 1,065 branches in Canada, with an enrolment of 106,000 members. It was regrettable that a large number of returned men still held aloof, considering that the Legion had accomplished more than any other organization for the benefit of veterans, and they and their predecessors had to fight for everything they got. This was said in no spirit of disparagement of the generosity of the people of Canada, but simply represented the difficulty of getting through Parliament the legislation desired.

Besides the care of suffering comrades and their dependents, the Legion had a constant task to perform in preserving one day in the year in remembrance of the 59,000 Canadians who gave their lives overseas and of the 30,000 veterans who had passed away since the end of the war.

League Of Nations Needs Teeth And Claws

Touching on the League of Nations and quoting some figures from an article by Major Drew, Comrade Macnicol said that, in his opinion and that of many others, the League was quite useless unless it had the power to prevent the manufacture of war supplies. It was a fact that nations that had signed the peace pact were spending fifty per cent more now on munitions than in 1913, the year before the outbreak of the Great War, and Italy and France each had over 600,000 men under arms. There seemed no doubt that manufacturers of munitions exercised a major influence upon the maintenance of peace, especially as the profits were large. When Britain took over munition plants during the war and operated them under government management, she undertook to pay the shareholders in these enterprises dividends on the same basis as earned before the war, and the result was that profits of \$80,000,000 were earned, which were used to manufacture munitions for the belligerents.

Some of the shareholders in these concerns were alleged to be shareholders at the same time in German munition firms, so that there was no patriotism about the business.

Work Of Dominion Command

The Dominion Command maintained a staff of twenty-two at headquarters at Ottawa, seventeen of whom were engaged constantly in pension adjustments, in regard to which a tremendous amount of work was involved, statistics of correspondence reaching impressive figures. In all, 1,259 cases were handled for veterans during the past official year.

Remembrance Day

He regretted to say that they had a hard time in Vancouver to secure observance of Remembrance Day on November 11th, and he forcibly termed it a disgrace that they had to go to some other place to observe the day, especially in view of the tremendous sacrifices made overseas. It was a fact that many people in Vancouver telegraphed to Ottawa to ascertain whether they could be compelled to observe the day, and it was really only through a technicality in the provincial Half Holiday Act that the merchants had to close their premises this year. He could not say what would be the result.

SOUTH AFRICAN CRICKETERS BEATEN BY AUSTRALIA

BRISBANE, Australia, Dec. 3.—Aided by a treacherous wicket, which was greasy after several days rain, the Australian bowlers made short work of South Africa in the first cricket test match today, the visiting team being defeated by an innings and 163 runs. (Continued on page 4)

RELIEF ASSOCIATION ACKNOWLEDGES DONATIONS

Shoes And Rubbers For Children Urgently Needed

The committee of the Kelowna and District Volunteer Relief Association wish to acknowledge with thanks the following donations in cash and kind: Order of Eastern Star, \$25; Knights of Columbus, \$25; Canadian Legion, \$25; Catholic Women's League, \$15; A Friend, \$10; Well-wisher, \$2; Mrs. Reynolds, \$2; A Friend, \$2; A Friend, \$2; miscellaneous donations, \$273; and other groceries from the B.C. Orchardists Ltd., Occidental Fruit Co., Ltd., Mr. F. M. Buckland, Kelowna Poultry Association; the B. C. Fruit Shippers Ltd., for storage space, the I.O.O.F. for courtesies extended; and various friends for bundles of clothing, etc.

The Bernard Avenue Group of the Ladies' Aid of the United Church have very kindly offered to repeat their performance of the "Rebellion of Youth" on some available date in January in aid of the relief fund.

The supply of clothing is going out as fast as it comes in, and the committee is urgently in need of boots, shoes and rubbers for children going to school. Contributions of all kinds will be thankfully received and faithfully applied.

A meeting of all representatives of organizations affiliated with the Association will be held on Wednesday next, at 8 p.m., at the usual place of meeting.

For the Committee,
A. A. BALLARD,
Hon. Sec'y-Treas.

ANGLICAN BAZAAR REALIZES LARGE SUM

Success Of Event Seemingly Little Affected By Hard Times

The Anglican Christmas Tree Bazaar, held at the Scout Hall last Friday and Saturday, demonstrated quite markedly that, provided the objective is worthy, the public is still willing to contribute its share in spite of hard times. The takings amounted to more than \$950, and donations received may swell the total amount to about a thousand dollars. After expenses are deducted, this should net somewhere between seven and eight hundred dollars to be devoted to the repair and upkeep of the church edifice.

The interior of the Scout Hall presented a very gay and attractive appearance, the scheme of decoration being similar to that of last year, with liberal use of Christmas trees, coloured lights and various tints of crepe paper, the ensemble giving a general air of Yuletide festivity.

Tables displayed a tempting variety of beautiful, useful and appetizing wares, mostly made or provided by the ladies of the parish. Under the leadership of Mrs. Shaylor, the Parish Guild was responsible for no fewer than four of the stalls, including novelties, fancy work, household linen and knit goods, and a "reminiscence" stall, which offered for sale articles given by former Kelowna parishioners and not plants, all collected or grown by Mrs. M. E. Cameron. A second-hand book and magazine stall was run by the Women's Auxiliary, and a splendid home cooking stall was operated by the Rutland Parish Guild on Saturday afternoon and Mrs. Mitchell and Miss Metcalfe on Friday and Saturday evenings. Mrs. C. E. Davis, wife of the Rector, presided over a stall of useful articles priced at 25 cents and under. A home-made candy stall was organized and furnished by Mrs. N. B. Lloyd. Other stalls included one for toys, under Mrs. J. Cummings, and a men's stall, handled by Messrs. O. St. P. Aitken and F. Royle.

The amusement features and side-shows were very liberally patronized. They included a fish pond for the children, under the management of Miss Cowan and Miss Steward, a "turn and take it" ring, under Mrs. Gardner, a cake guessing competition, run by Mr. F. Williams, and the various side-shows, which were under the general supervision of Mr. A. K. Loyd. The latter included a shooting gallery, under the direction of Mr. F. W. Pridham, house-keeping, with Mr. D. Chapman and others in charge, and a bottle smashing contest, conducted by Mr. H. V. Craig. Guessing competitions under the management of Mrs. Gray included one for which a prize of half a ton of coal was given by the Campbell Coal Co. Various raffles brought in a considerable sum, a great attraction being a handsome prize of twenty gallons of Home gasoline, given by the Home Oil Company, Messrs. W. Jolley and J. Emslie.

All the work of construction, lighting, hauling, etc., was done by the men members of the congregation, and the lent by Mr. H. A. Blakelborough. General oversight of the Bazaar was in the hands of Mr. H. G. M. Gardner, who, on behalf of all concerned, wishes to thank most heartily all those who contributed articles for sale or gave their services in any way towards making the event a success, likewise the general public for their generous patronage of the stalls and amusement features.

UTILIZATION OF FRUIT JUICES NEXT YEAR

Strong Winemaking Concern In Victoria Proposes To Enter Field In Okanagan Valley

The Growers' Wine Company, of Victoria, have indicated their willingness to assist in the financing of a plant for the manufacture of fruit juice products in the Okanagan Valley. This company, which has a large capital investment in the wine industry, will probably require from 60,000 to 70,000 gallons of apple alcohol for fortification of their wines next year, and next week representatives of the company will visit the three principal valley centres to outline their proposition.

Mayor Herbert Anderson of Victoria, who is retiring from public life this year to become general manager of the Growers' Wine Company, and Mr. N. H. Lamont, another official will address a meeting of influential growers and members of the executive of the Kelowna Board of Trade on Tuesday next, when their proposal will be presented. Similar meetings will be held in Vernon on Monday and in Penticton on Wednesday. The By-Products Committee of the B. C. Fruit Growers' Association arranged for the meetings at the request of the Victoria manufacturers, who, it is expected, will bring an encouraging message to all interested in the development of by-products.

The subject of the meeting was suggested by the By-Products Committee of the B.C.F.G.A., pointing out the difficulties any strictly local organization would have to face.

A great deal of interest is being aroused these days in connection with the possibilities of developing a fruit juice industry in the Okanagan. Some rather "wild" stories are being circulated as to the profits that are possible from such an industry and to the effect that such an industry would take up all the surplus fruit and pay the growers almost equivalent to what they are getting for their graded fruit.

The By-Products Committee of the British Columbia Fruit Growers' Association has continued to work quietly but carefully on this matter, since the last report through the press and are really not satisfied that the time has come when they can say to the growers of the Valley that their labours are complete and that everything is clear for the development of the industry.

It is true that there is nothing at the present time to prevent any one from engaging in the manufacture of ciders, vinegars, and the so-called non-alcoholic beverages. There is nothing to prevent any one from making wines up to a certain strength, providing they secure their wine licence and comply with the Government regulations in that respect. To make the new type ciders such as are made in England, and more recently in Eastern Canada, requires a plant and equipment costing about \$50,000 to \$60,000. There are only a few men in Canada today who understand this process and are capable of turning out a product that can be guaranteed as to strength, flavour and purity indefinitely. The Dominion Government have employed experts for several years to do nothing but study cider making. What they have learned in this connection is available for the asking. They recommend, and are using in Eastern Canada with marked success, the English method which includes some machinery, the underlying principles of which are of recent discovery.

With regard to distillation for fortification purposes, Excise regulations are still incomplete and unsatisfactory. This outlet promises the largest immediate market and it is therefore important that we assure ourselves in connection with excise regulations before fostering this industry. Up to the present time regulations have been made which are reasonably satisfactory to the grape wine manufacturers of the Niagara peninsula of Ontario. That is, they cover the use of alcohol made from grapes only. No mention is made of apples. We have reasonable assurances that certain conditions, regulations will be made satisfactory to the apple industry. We are endeavouring to bring about these conditions as rapidly as possible. A plant for distilling together with the storehouse for bonding and aging and the financing until the product is aged sufficiently for use would require, at least, \$150,000. Licence and bonds, the Excise Department would also require a neat sum, and any concern undertaking this class of work would have to have a large volume to pay the over-head and considerable financial strength behind them.

This Committee are inclined to favour a plant which could handle a full line of products and would probably require an investment of close to \$300,000. That is probably the smallest part of the whole scheme. The most important is the marketing end. To compete with some of the larger soft-drink interests, such as Coca-Cola and Canada Dry, will require an experienced marketing organization. Then when we get into the alcoholic lines, we cannot expect to sell much or even get our goods on the shelves of the liquor stores until we have created a demand for it through advertising, and advertising costs money. Canada is not a wine-drinking or brandy-drinking country, and we would have to secure a large percentage of the total consumption, in competition with established French and Portuguese wines and brandies. (Continued on page 5)

CANADA LEADS WORLD
IN EGG CONSUMPTION

Probably no country in the world can equal or even come close to the Canadian record of a per capita consumption of over an egg a day. That this claim is not idle boast is proven by official figures just published by the Dominion Bureau of Statistics. These figures after balancing exports against imports and taking into account stock on hand, show an apparent egg consumption of 304,094,509 dozen.

These are figures that talk. They represent the huge total of 3,649,134,108 eggs consumed officially estimated at 9,935,000—in other words 306.18 eggs per person, or just over one egg a day for every man, woman and child in Canada.

This compares strikingly with an egg consumption of 227,199,015 dozen ten years ago, a per capita average of 262 per annum, and 265,783,655 dozen in 1926, or 338.4 per capita.

More interesting still, however, is the value this represents as an industry and adjunct of farm operations. The 1930-31 production, sold at an average price for the year of 38.5 cents to consumers, means that Canadian housewives paid over the counter of retail stores a total of no less than \$117,176,385.96. And this for only one item in the range of the animal products industry.

What did this mean to Canadian farmers? Using the consumption total as representing the capacity of the domestic market, and on a basis of the av-

HOT CHICKEN SUPPER AT
FIRST UNITED BAZAAR

Ladies Of Church Preparing To Cater To Large Crowd

The ladies of First United Church are making provision to accommodate a good crowd for the hot chicken supper at the opening of their Annual Bazaar and Sale of Work on Friday evening of this week at 6 o'clock; and a large variety of very tasteful articles will be presented for sale on the numerous booths at prices to suit customers in the present stringent economic conditions.

The Sale with its various attractions and games will serve as a social affair as well as fill a financial need, and will continue until 10 o'clock on Friday night and again on Saturday from 2 o'clock until 10 p.m. Afternoon teas will be served from 3 p.m. Saturday.

average price for the year of 23 cents per dozen to farmers, this represents a farm revenue totalling \$69,941,737.07.

And the difference between these totals, some \$47,234,548, is what eggs contributed directly to "business" in the whole round of transportation, storage, merchandising and incidental costs. With a market paying an average of 38.5 cents per dozen for his eggs, the farmer realized an average of 23 cents per dozen, and marketing costs totalling 15.5 cents per dozen. These figures tell a real story.

FERTILIZE YOUR ORCHARD

THIS FALL

WITH SULPHATE OF AMMONIA

Sulphate of Ammonia, an ideal nitrogenous orchard fertilizer, has, on account of its cost, been in recent years neglected by the orchardist. Now, however, we can offer high grade 20% Nitrogen Sulphate of Ammonia, a product of B. C., at a price which will entail a cost for adequate fertilization of about ten cents per tree.

Can you afford NOT to fertilize?

Ask Kelowna Growers' Exchange for particulars.

STORE OPEN SATURDAY NIGHTS\$100 a) Happy Months For You
Month) When Earning Years End!

Earning years must eventually cease, the period of retirement must inevitably arrive for each of us, for we cannot stay time in its flight. When you come to the end of your earning years what income will you have to continue the independence you value, and provide for the comfort and standard of living you now enjoy?

If you will do your part, the Confederation Life Association will GUARANTEE that you will have an income of \$100 a month when you retire. Under this plan you can provide for the future without missing the deposits, and you

will have the satisfaction of watching your savings grow. THEN . . . with the assurance of the monthly income you must have for complete independence; with leisure to rest or play, as the fancy takes you; and with health, which freedom from financial worry promotes. . . your later years may well be your happiest. Decide NOW that you will investigate this plan. Send for the folder, "Your Key to Happiness," and full information. Without obligation, it is yours for the asking.

Time to play and travel comes to those who plan.

MERCURY
HOSIERY

Mercury Hosiery looks the part on all formal occasions because of its "quality". It wears remarkably well. Ask to see the latest shades in Mercury Hosiery when buying and don't be put off by the offer of "something just as good". . . It isn't.

BRITISH ACTRESS UNDER VICE-REGAL PATRONAGE

Lady George Cholmondeley, wife of the younger brother of Marquis Cholmondeley and a prominent artiste in Lord Bessborough's private theatre at Stanstead Park, England, is heading her own company of players and dancers, which will appear in a series of Canadian engagements under the patronage of Their Excellencies, the Governor-General and Lady Bessborough. Well known in British and continental circles as a designer, a creator of ballets and a dancer herself, she has now become a manager.

MUMMY WHEAT

(Experimental Farms Note)

During the past few months there seems to have been an unusual revival of interest in the vitality of wheat claimed to have been found in the tombs of ancient Egypt. Samples of this so-called "Mummy" wheat have been received by the Cereal Division, Experimental Farm, Ottawa, within recent months, from farmers who claim to have produced the said seed from samples coming directly from the Egyptian tombs. Statements have also appeared in the press, which might lead one to believe that the tombs of Egypt appear to possess some mysterious power to preserve the germinating ability of cereal grain for a long period of time. Apparently these statements have attracted the attention of a number of Old Country people who have appealed to certain officials of the British Museum for information as to whether or not wheat stored in tombs for a long period of years is capable of growing. As a result of these enquiries, Sir Ernest Wallis Budge, Keeper of Egyptian Antiquities in the above museum, published the following article in the London Times recently.

"Three gentlemen connected with the press have rung me up and told me that they had received a report from America that a distinguished farmer had succeeded in making to grow wheat which he had obtained from the tomb of Tutankhamen. And they asked me if I believed that such a thing was credible.

During my years of service as Keeper of Egyptian Antiquities in the British Museum, I was asked this question, either by letter or by word of mouth, on an average twice or thrice a week, and the Director received many letters asking the same question. Dr. Birch had said, 'Ancient Egyptian wheat will not grow,' and we gave that as an answer to inquiries. Subsequently good fortune gave me the opportunity of buying, in 1897, at my own cost, in Western Thebes, a good specimen of a wooden model of an ancient Egyptian granary, which had just been found in a tomb of the Nineteenth Dynasty, say 1200 B.C. It contained little bins and the usual staircase, and the whole space not occupied by the bins was covered with a layer of darkish brown grain, wheat or barley (I know not which), several inches deep. I poured out the grain into a leather bag and brought it home in due course.

"I suggested to the Director that we should give some of the grain to the authorities at Kew Gardens and ask them to make a careful experiment and let us know the result. With his approval I wrote to Dr. Thistlethorn Dyer, the Curator, and asked his help, and he promised to give the planting of the grain his personal care and attention. He prepared soil and divided the grain into four little heaps, and he planted each heap separately, and covered each little heap with glass of a different colour—white, yellow, red, and blue. The whole of the Kew staff was intensely interested in the experiment, and many botanists joined them in waiting for the grain to germinate. They waited day after day, week after week, but no shoot of any kind appeared. At length, after three months, they turned over the little plots and found that all the grain had turned to dust. As a result Thistlethorn Dyer reported that ancient Egyptian wheat or barley would not grow, and then went on to talk about the shortness of the life of the germinating properties in 'grain' generally. Many others tried the same experiment, with the same result.

"As we shall have all the old stories and statements brought up again in the press generally, I would fain ask you to put on record in The Times the above short account of Thistlethorn Dyer's exhaustive experiment."

L. H. NEWMAN,

Dominion Cerealist.

BOY SCOUT
COLUMN

Troop First! Self Last!

December 1st, 1931.

Orders for the week ending Thursday, December 10th, 1931:

Duties: Orderly Patrol for the week, Eagles; next for duty, Otters. Rallies: The Troop will rally for the regular weekly meeting on Monday, the 7th inst., at 7.15 p.m. There will be the usual basketball practice on Friday evening, between 7 p.m. and 9 p.m. The Scoutmaster was unable to attend the parade on Monday evening, and so the Troop was in charge of A.S.Ms. Treadgold and Williams. The meeting was well attended and on the whole the discipline was fairly good. A programme of games and P.T. was carried out, including a few exercises on the ceiling rings, which always prove a great attraction.

We regret that this week we lost one of our members, Scout Russell Scrim, who states that he finds it difficult to carry on because it interferes with his home work. We are really sorry to lose Russell, because we need every boy we have just now to keep up the Troop standing.

Scout Notes Of Interest

A Boy Scout troop has been organized at an asylum for lepers near Colombo, Ceylon. There are several leper colony troops in West Africa.

During the summer's hop picking in Kent, Oxford University Rover Scouts erected a temporary chapel, surgery and canteen, and staffed them for the benefit of pickers.

In connection with the next world gathering of Boy Scouts, to be held in Hungary in 1933, a cordial invitation has been extended all Dominion contingents to visit the Old Country before or after the Jamboree.

A member of the Canadian contingent to the great world gathering of Scouts in England in 1929 who attracted much attention has passed through the death of Scout Bob Grey of British Columbia. As a genuine Red Indian and son of a chief, many English boys sought the Canadian camp to meet Scout Grey and take his picture. Grey led the Indian dances which were a popular feature of the display given by the Canadians in the great amphitheatre. His death was learned with great regret by other members of the Canadian contingent.

Scout training for boy patients in children's hospitals has been attracting the attention of medical authorities. Troops at the Shriners' Hospital, Montreal, the Sick Children's Hospital, Toronto, and the Queen Alexandra Solarium, Vancouver Island, are credited with materially helping the boys concerned. Their acceptance into the great world brotherhood of boys, and the discovery that they can do many of the Scout tests, gives the handicapped lads a new outlook on life.

LETTERS TO THE EDITOR

DR. de PFYFFER DOUBTS
FARMERS EVER CAN UNITELucerne, Switzerland,
Nov. 14th, 1931.The Editor,
The Kelowna Courier,
Kelowna, B.C.

Dear Sir,
Having the Kelowna Courier mailed every week to my actual residence at Lucerne, Switzerland, I have the pleasure of reading your dear old paper regularly the same as I used to do it for many years on my old Catholic Mission Ranch. I follow with special interest the many efforts made by farmers to better their sad condition. Now I find in my latest Courier (Number 11, of Oct. 22nd) a Marketing Plan, which is full of good ideas. But, I am sorry to say, the whole proposition is doomed to failure because, unfortunately, the plan starts with the proposition: 1. "All farmers to unite."

Yours truly,
DR. P. de PFYFFER.

CHURCH NOTICES

ST. MICHAEL AND ALL ANGELS
Corner Richter Street and Sutherland Avenue
Dec. 6th, Second Sunday in Advent.

GUILD OF HEALTH

Weekly Scripture Study for all interested in Spiritual Healing.
11:11 Kings 6: 8-12; John 11: 43-50; John 11: 11-15; Acts 12: 1-15; Psalms 139: 7-12; Luke 23: 8-11; John 18: 28-end.
A body is present whenever its attractive influence is felt. This law of the material universe holds still more strongly in the Spiritual. A person is

N. Y. ROCHESTER

Veteran Superintendent of the Canadian National Railways Barge and Ferry Service, who has retired to private life after fifteen years with the Company. Mr. Rochester is an old timer in the West and worked on the construction of the Government Telegraph line in the Yukon in 1899. He was born in Burnstown, Renfrew County, in 1852. Following his retirement he will continue to reside in Vancouver. Mr. Rochester has been succeeded by Mr. J. E. Blackaller as Superintendent of the Barge and Ferry Service.

Upon his retirement from the Canadian National service, Mr. Rochester was the guest of a presentation made him by Mr. B. T. Chappell, General Superintendent, on behalf of the employees in Vancouver.

ELLISON

Mr. and Mrs. Lang left last week for Oliver, where they will spend the winter at the home of their son.

Mr. Booth and Mr. Jack Hall left for a few days hunting trip in Lumby, "Chief" Caldwell, Mr. Bell and Mr. Macdonnell are also away on a hunting trip.

Last Wednesday, Mrs. Baron entertained a number of out of the district friends at bridge.

The annual Christmas Tree has been set to be held on Friday, Dec. 18th. In spite of hard times, people are contributing very liberally to the fund and well over thirty dollars has been collected already. The children will have their usual big Christmas treat at Ellison—thanks to the subscribers.

A week ago Tuesday the Interior Co-operative Association held a meeting in Ellison School. Their intention is to establish a winery in Kelowna. About twenty-five local growers turned out and a number signed up with the Company.

present where his influence is felt. This presence may be trained to great perfection in what we know as telepathy or clairvoyance. In intercessory prayer we can lay ourselves over against those we pray for, in establishing definite and conscious contact with God. We offer our strength in Christ, or Christ's strength through us, to our fellows. The blessings of presence are attained only by mutual approach. God is everywhere, yet His presence is unknown and without blessing to those who will not respond to His influence.

WATER NOTICE

(Diversion And Use)

It Brings You Close To Friends

The sound of a voice over
the long-distance telephone
brings you close to friends
in a very real way. As well
as your voice, they hear
your slightest expression of
feeling. The consciousness
of the miles that lie between
you disappears in an instant.

There is nothing like a
long-distance telephone call
to strengthen old ties. A
talk with distant friends or
relatives this coming Christ-
mas will constitute a
thoughtful reminder of your
interest in them.

day night. This rule is in the mutual inter-
ests of patrons and publishers to avoid con-
fusion in Wednesday and Thursday and
consequent night work, and to facilitate pub-
lication of the Courier on time. Changes of
contract advertisements will be accepted on
Tuesday as an accommodation to an adver-
tiser confronted with an emergency, but on
no account on Wednesday for the following
day's issue.
Transient and Contract Advertisements—Rates
Legal and Municipal Advertisements—First inser-
tion, 10 cents per line; each subsequent inser-
tion, 5 cents per line.
Classified Advertisements—Such as For Sale,
Lost, Found, Wanted, etc., under the heading
"Want Ads." First insertion, 10 cents per
line; each additional insertion, without change
of matter, 5 cents per line. Minimum charge,
per week, 30 cents. Count five words to
one line.
Each initial and group of not more than five
figures counts as a word.
If so desired, advertisers may have replies
addressed to a box number, call on the
Courier and forwarded to their private ad-
dress, or delivered on call at office. For this
service, add 10 cents to cover postage or
filing.

THURSDAY, DECEMBER 3rd, 1931

EMPIRE PREFERENCE

Many people connected with the fruit
industry are gloating over the prospect
of enhanced prices for apples exported
to Britain, consequent upon provision
for enactment of a tariff upon fruit
from foreign countries, but they should
restrain their transports until the new
regulations come into force and their
effect can be estimated.

Averse by long tradition to a rigidly
protective system such as has been
built up in the United States through
many successive administrations, both
Republican and Democratic, British
statesmen undoubtedly will use chiefly
for bargaining purposes the powers
conferred upon them to levy duties up-
on foodstuffs. For instance, huge quan-
tities of soft fruits are imported into
Britain from Holland and Belgium, and
likewise bacon and butter from Den-
mark. Holland and Belgium are also
active industrially, but Britain may
wring some concession out of them to
secure more favourable terms for ad-
mission of her manufactures by a quid
pro quo in the form of favoured nation
treatment in regard to duties on fruit.
Denmark, largely an agricultural coun-
try and not of importance industrially,
may also be forced to grant favours in
regard to British manufactured goods
in order to maintain her share of the
supply of provisions to Britain.

The Dominions are to be exempt
from any tariff on their exports of
foodstuffs to Britain, but they may not
secure a very marked advantage over
countries which secure favoured na-
tion treatment after bargaining. So far
as B. C. apples are concerned, the
encouraging feature is that our most
dangerous competitor in the British
market is the American Pacific area,
which is likely to suffer by the imposi-
tion of the new duties, as it is not
likely that the United States will
change its whole tariff structure and
give British manufactures favourable
terms of admission merely to save
some of the apple trade for the states
of Washington and Oregon.

ACTIVITIES OF CANADIAN LEGION

(Continued from page 1.)

done next year, but it had been sug-
gested that the people be urged to do
all their shopping on the previous day,
so that stores that remained open on
Remembrance Day would do little busi-
ness and thus would probably be more
willing to close the following year.

Unemployment
Comrade Macnicol read a number of
recommendations passed at the Dom-
inion convention in regard to unem-
ployment, the most important of which
favoured unemployment insurance, pro-
vided that the State contributed in part
and that certain industries omitted un-
der the British plan were included.

War Veterans Allowance Act
For the War Veterans Allowance Act,
which provided for payment at the age
of sixty of pensions to veterans who
had served in a war zone, at the rate of
\$20 a month for single men and \$40 a
month for married, the speaker had un-
qualified praise. It brought the bene-
fits of the old age pension ten years
earlier to veterans, who, through their
war experiences, were apt to age soon-
er. The Legion was seeking to supple-
ment the benefit by asking that such
pensioners be given free medical treat-
ment such as was given to old age
pensioners.

Civil Service Appointments
The Civil Service Act now in force
was framed by the Union Government
of war times, but was subsequently en-
dorsed by Liberal and Conservative ad-

ENGLISH GIRL IS BEAUTY
CHAMPION

Miss Margaret Aline Bording, beau-
tiful English girl, carried off first prize
in a beauty carnival at Nice, France, in
which entrants from almost every Eu-
ropean capital took part.

ministrations. Since the close of the
war, the Legion had been successful in
securing about fifty per cent of the
appointments for veterans, but there
was a strong agitation in Quebec to
have the preference in favour of veter-
ans, more especially of the Imperial
forces, repealed, and it was likely that
the battle for preference might have to
be fought once again in Parliament.

In British Columbia the Civil Service
Act was "not so good," and it had been
necessary for the Legion to take up the
case of Norman Watt, Government
Agent at Prince Rupert, who had been
dismissed unjustly. He was glad to
say the fight had been successful, and
which enquiry had been secured at which
Watt was exonerated and he had been
reinstated in office.

Soldier Settlement

Various Branches had passed resolu-
tions asking for a moratorium in con-
nection with soldier settlers, but the
Dominion convention had come to the
conclusion that it would not be a friend-
ly act, in view of all that had been done
by the Dominion, to ask for a morator-
ium. However, a request had been
made for special consideration for men
who were in difficulties, and as the re-
sult leniency had been shown.

Pensions Act

The Canadian Legion had not asked
that the whole of the old system of
pensions administration be washed out,
but that necessary amendments be
made. However, Parliament had not
yet changed the whole system, and he
regretted to say it was not working out
as well as had been expected. Better-
ment of methods was imperative, and
in this regard Mr. Macnicol warmly
praised the efforts put forth by Sir
Arthur Currie. Owing to the system of
provision for appeals by the Pensions
Board to the Court of three, which sat
at Ottawa, against decisions in favour
of applicants for pensions by the Tribu-
nals, lengthy delays ensued, many ap-
plicants lost out in the end and the
veterans were really no further ahead
than when they had the old Appeal
Board. It was a serious matter, as the
people of Canada had come to believe
that the veterans were satisfied with
the last pension legislation that had
been enacted. However, it had been
decided by the Dominion Command to
take up one hundred typical cases and
have them thoroughly threshed out, and
good might come out of this procedure.

At the Dominion convention a recom-
mendation had been put through that
Pensions Advocates should be appoint-
ed solely upon the nomination of the
Legion. This was to get away from
political influence and render such ap-
pointments wholly non-political. While
partially successful in securing action
on the recommendation there were a
few cases in which appointments still
were political.

The Legion was not responsible for
the appointments made to the Pension
Tribunals, with which they did not wish
to be identified, as they were made on
a party basis.

In the United States all men who had
enlisted for service in the Great War
were entitled to free medical treatment,
but in Canada this privilege was re-
stricted almost wholly to pensioners of
certain minimum percentage of dis-
ability. The Legion favoured extension
of free treatment to all veterans.

Imperial Pensioners

Complaint had been made that the
Legion did not accomplish enough for
imperial pensioners, but it was a dif-
ficult matter to effect any change, as
of course the British system, which was
not so liberal as that of Canada, was
world-wide and no local alterations
could be made. At the same time, the
Legion was doing everything in its
power for the Imperial pensioners. Brit-
ish pension officials had been inter-
viewed and certain recommendations
had been made.

Legion Ritual and Banner

It had been decided at the Dominion
convention to print a Legion ritual,
and to issue a banner with features sim-
ilar to that in use by the British Leg-
ion.

Perpetuation Of The Legion

It had been urged that the Legion
take steps to perpetuate its existence
by some such step as enrolment of
the sons of veterans, but, since many
ex-service men outside of it still, the
organization had not reached the peak
of its strength. The Grand Army of
the Republic, comprising veterans of
the American Civil War, did not reach
its maximum strength until twenty-five
years after its initiation. Hence, it did
not seem necessary for some time to
come to take up the matter of main-
taining the membership.

Sweepstakes

There was no doubt but that the
majority of the delegates at the Dom-
inion convention believed that sweep-
stakes should be permissible, but ow-
ing to the facts brought out at that
gathering as to the methods employed
in the sale of tickets and other features

YESTERDAY

TODAY

TOMORROW

By R. M. R.

Abusing A Word

Shameful advantage is taken contin-
ually of the word "service." In so many
cases the word is verbose. A good
editor asked to put his blue pencil at
work, would abbreviate much of the
printed matter that many places of busi-
ness put out, after even a cursory sur-
vey of those marts. And by so doing
he would make the word service event-
ually mean something.

Too many men—and women—are in-
clined to open up a business and ever-
lastingly stress service as their excuse
and then promptly forget all about
service. Slogans employing this abused
word emanate from the smallest to the
largest business, and often it is just a
slogan and nothing more. I once knew
of a store that plastered "service" all
over every form of advertising used,
yet when I went into that store the
clerk gave the impression he was doing
a great favour to acknowledge my
existence. Perhaps he was not a reader
of his store's advertising.

The best definition of service I can
think of is "labour for another." It is
really too bad this interpretation is ever
distorted to read "labour for self."

Anent Crime

"We are making criminals faster
than Henry Ford can make cars."

So says "Jim of the Penticton Jungles"
in a letter which rings sincere in the
Penticton paper. He goes on to say:
"This life is turning us against re-
ligion and we all wonder what is to
become of us and some of us don't
care as we have given up all hope. But
I am sorry to say that Canada will have
to pay for this. Instead of a country
of bright, clean-minded and strong
men, she will have a bunch of weak
and crippled up men, to say nothing of
being 'Red,' and all the jails will be
full."

In another part of his letter, Jim de-
clares that most of his pals haven't the
clothes in which to go to church, and
asks if it wouldn't be all right to stage
a show for the unemployed.

As you or I might be under the same
circumstances, "Jim of the Jungles"
was in a despondent mood when he
burst into print. There is little danger
of Canada developing a "bunch of weak
and crippled men," and as for our jail
being full—well, maybe they should be
while a certain amount of crime is aris-
ing out of the distressed conditions of
today, it has not attained alarming pro-
portions. Normally we have crime and
plenty of it—part of an imperfect world.
And as Canada's population increases
so will the percentage of her criminals.

in connection with certain affairs of
the kind, it was decided to do nothing
towards their legalization in Canada.

The immediate result of this decision
was the necessity of returning the sum
of \$57,300 forwarded to the Legion a
year ago last June by the Army and
Navy Veterans as a share of the pro-
fits earned on the sweepstake operated
by that organization. This involved
quite a sacrifice, as the Legion was
then overdrawn at the bank, but the
action of the Legion evoked warm
praise throughout the press of the United
States and Canada.

Poppy Campaign Successful

He was very glad to be able to inform
them that the recent poppy campaign
had been very successful, and he thank-
ed all for the generous support that had
been given to it.

In conclusion, Mr. Macnicol briefly
described the nature of the large
amount of business transacted by the
office of the Provincial Command and
gave some enlightening statistics. He
urged that all Branches make full use
of the services of the office, which were
all times at their disposal.

Upon the motion of Comrade T. G.
Norris, a very hearty vote of thanks
was accorded to Comrade Macnicol for
his address, and the meeting then
formally adjourned in order to enjoy a
really excellent smoking concert. A
lengthy programme of songs, recita-
tions, bagpipe and orchestral music,
with many encores, extended a very
pleasant time until the midnight hour.

Son: What is a pedestrian, Daddy?
Dad: It is a person with a wife,
daughter, two sons, and a car.

Perhaps the churches fall down in
their duty in time of crisis. At any
rate, it seems the church is the last
place men in distress will turn to.
They don't want to be "preached at,"
and they certainly don't cherish spiri-
tual balm when they need material aid.
But the church is poor in worldly
wealth if rich in spiritual endowment,
and is in no position to banish poverty
from the world. Man, in his bitterness,
may turn away from it, but he cannot
disregard its significance as a moral
stabilizer in a wicked world.

Summing up the whole question, I
think the struggling B. C. government
has done a lot for the men in distress
circumstances—including those who
left their own native provinces to be-
come guests of this far-west sector of
the Dominion.

And you, Mr. Man, who are inclined
to damn society up hill and down—
Don't overlook the fact that the work-
ing man, who may not be so happy as
you think, is paying for it.

The best advice I can give those who
dislike publicity is keep out of the
police court.

It is rumoured Kelownians smoke in
bed. That's all right if the bed doesn't
take up smoking too.

Headache

Time

Gather round the little old bankbook
and get ready to bid it a fond farewell;
be a good boy Scout to your friends
and high hat the man who didn't recip-
rocate last year—the great annual ex-
change and good cheer is only three
weeks away. Christmas, friends, is just
around the corner—and it's not the
same corner prosperity has been hug-
ging. It's a corner (soft music, pro-
fessor) we've got to turn. Even little
Jack Horner couldn't sit in it without
becoming dizzy.

We are now faced with the problem
of estimating the worth of our friends
and fixing the rate of discount to be
imposed upon our relatives. We are
wondering upon whom we can unload
that goldfish-bowl we received last
Christmas, and we are racking our
brains in a conscientious endeavour not
to make a present of a present to the
one who made us a present of that pre-
sent a year ago. It is all very involved
and we are as worried on Christmas
Day as if we had let the whole thing
slide with the excuse that we thought
Hoover's moratorium applied to this
year's Christmas presents.

One of the peculiarities of Christmas
is the headaches that accompany it. Of
mysterious origin they become an epi-
demic at the holiday season. It is rum-
oured around town that good citizens
deliberately invite this malady at the
Yuletide, but then we can't believe all
we hear. Who, I ask you in good faith,
wants a headache?

Christmas spirit is a fine thing. It
is a wonderful thing to become imbued
—I mean imbued—with. When the
boys up the street distribute it more
liberally—when they show the real
Christmas spirit by handing it out with-
out looking for something in return—
then we'll have a Christmas to talk
about.

In fact, we'll have brandy to burn.

EPITAPHS FROM OLD WELSH TOMBSTONES

Here in this grave do lie,
Back to back, my wife and I;
When the last trumpet, the air do fill,
If she gets up, then I lie still.

Between the stirrup and the ground,
He mercy sought, and mercy found.

When better cars are built they will
become obsolete just as fast as the
ones we have today.

UTILIZATION OF FRUIT JUICES NEXT YEAR

(Continued from page 1)

dies, before these outlets give much promise.

We urge that growers be not stampeded into schemes which are represented to be the "only solution" or to promise more for cull fruit than it is economically worth. There is no "gold mine" in the industry but there is a possibility of a market for cull fruit for farmers at its economic value and a profit to the concern which is able to process, manufacture and market the product in the most capable manner. There are people of this type ready to step into this industry on a co-operative basis with the growers and they will no doubt make their proposition known at the proper time.

At the suggestion of Mr. F. A. Atkinson, specialist in charge of fruit products work at the Summerland Experimental Farm, a meeting was held in the office of Sales Service Limited, on Thursday last, when members of the B. C. Farmers Co-operative Marketing Association and the Interior Farmers' Association met the By-Products Committee of the B.C.F.G.A. Mr. H. B. D. Lyons was chosen as chairman. Mr. R. H. MacDonald, President of the B.C.F.G.A., was in attendance, also Capt. D. M. Rattray, of Salmon Arm, a member of the committee.

The following resolution, moved by Mr. A. E. Smith, of Summerland and Mr. W. Deacon, of Oliver, was endorsed: "Resolved, that a committee consisting of the Presidents and two members of the B. C. Farmers' Co-operative Marketing Association and of the Interior Farmers' Association meet and select a chairman and consider means of amalgamation."

Local and Personal

Mr. Paul Hayes left on Thursday last by Canadian Pacific for Calgary.

Mr. F. Smalton left yesterday morning by Canadian National for the Old Country.

Mr. O. Jennings was a Canadian Pacific passenger to the Coast on Thursday last.

Mr. Wahl left on Tuesday by Canadian National for Halifax, en route to the Old Country.

Mr. J. H. Dockstader, of the Easy Washing Machine Co., Vancouver, is a guest of the Mayfair Hotel.

Messrs. B. Norris and J. B. McDonald, of Grand Forks, are registered at the Mayfair Hotel while visiting the city.

Mr. H. G. M. (Scotty) Wilson, of Vancouver, formerly of Kelowna, is in the city, a guest of the Royal Anne Hotel.

Mr. R. Arnott, of Summerland, representing Eddie's Nurseries, of Sardinia, is in town this week. He is registered at the Mayfair Hotel.

Mr. John L. Noble, of Vancouver, was a guest of the Rotary Club at their regular weekly luncheon in the Royal Anne Hotel on Tuesday.

Mrs. Fred Burr and family left on Tuesday to join Mr. Burr at Penticton, where they will reside in future. Fred Burr, Jr., is remaining here as baker at Chapin's.

During the past week hundreds have been taking advantage of the several excellent sheets of ice in the district and skating continues as one of the most popular of winter sports.

Owing to the fact that many members of the Shippers' Council are at the Coast this week, the regular fortnightly meeting, which was scheduled to take place here yesterday, was not held.

The Rotary Club is making arrangements for a popular entertainment in the Empress Theatre on Thursday evening, December 17th, in aid of community service and local relief. Keep the date open and watch for details in next week's issue.

Rev. J. F. Shaw, Salmon Arm, Chairman of the Okanagan-Kamloops Presbyterian, United Church of Canada, was the special preacher at Oyama, Okanagan Centre and Winfield on Sunday last, while Rev. J. H. Young, pastor for these districts, spoke at Salmon Arm. Addresses were given in the interests of the general church budget.

Mr. T. F. McWilliams was appointed on Monday by the government a Police Magistrate in the city of Kelowna, with jurisdiction in the Small Debts Court and as a Stipendiary Magistrate in the County of Yale. He will act in the absence of Magistrate J. F. Burne, who, with Mrs. Burne, will leave this month for Honolulu, Hawaii, where they will spend the winter.

Mrs. S. B. Watson, representing Western Canada Flour Mills, gave an interesting talk on "Secrets of Cakes" before the Kelowna Women's Institute at the Institute Hall on Wednesday last week. This meeting was open to the public and, in all, there were seventy in attendance. Tea was served, including cakes baked and decorated by Mrs. Watson.

The veterans of the 2nd C.M.R. Battalion are holding their twelfth annual reunion dinner on Saturday Dec. 12th, at 7.00 p.m., in Love's Cafe, 823 Grandville Street, Vancouver. Col. G. Chalmers Johnston, D.S.O. and Col. W. W. Foster, D.S.O., will be present, and a large attendance of former members of the unit is expected. The secretary is Mr. H. D. Williams, Bank of Montreal, Vancouver.

Remember that an old toy, left at the store of P. B. Willis & Co., Ltd., will be collected by a Girl Guide and made to look like new. The Guides' work shop is busy these days showing the true Christmas spirit in an effort to bring happiness to those kiddies who might otherwise be overlooked by Old Santa on THE morning of the year. Every one can help to avert a tragedy at Christmas time by doing his bit—by giving old toys capable of repair, by donating new toys, by contributing even a small amount of cash.

Over-subscription of the National Service Loan of \$150,000,000 is expected to have a consequence in resumption of the relief work programme in British Columbia, especially in view of the payment this week by the Dominion Government of \$1,000,000 into a Victoria bank to the credit of the provincial government for relief purposes. Hence, the executive of the Kelowna Board of Trade feel that the Kelowna-Naramata road project is not shelved for all time, as was stated in the Coast dailies, but has a very good chance of being carried out, as it is the only piece of construction in the vicinity of Kelowna that can be carried on without interruption during the winter and without it no work will be available for the local unemployed.

In a letter to Mr. G. F. Pearcey, Linden Apiraries, Kelowna, Hon. T. G. Coventry, Markets Commissioner for British Columbia, London, England, comments upon Canada's success with her exhibits of honey at the Imperial Fruit Show. He says in part: "Perhaps the most interesting thing was the success we made in the honey section, although we are not an exporting province, as we beat New Zealand, Ontario in one class, South Australia, West Australia, Queensland and the Irish Free State, who are all exporting honey. The fact that we won six prizes out of nine is, to my mind, a more commendable matter than our wonderful success in the apple classes, which we take for granted." He also forwarded a photograph of Canada's honey exhibit, in which was included products of the Linden Apiraries, and also a copy of the magazine "Canada," which contained pictures of the apple exhibits.

QUANTITY CHEAPENS COLLEGE DEGREES

Mass production, attributed to lowering the standard in Canadian universities and putting it within reach of incompetents, has robbed the degree of B.A. of its significance, states Dr. W. Hamilton Fyfe, principal of Queen's University, in an interview. He remarks that some co-eds take the course just to flirt and have a good time, and considers that college fraternities are often snobbish.

OBITUARY

Mrs. Ruth E. Hill

Many old friends in Kelowna mourn the death of Mrs. Ruth E. Hill, wife of Mr. Frank H. Hill, Canadian Pacific Express Agent at Penticton, who passed away on Tuesday, November 24th, at the Penticton Hospital, after an illness of only a week's duration. She visited Kelowna in company with her husband the previous week and on the way home complained of a severe headache, which was the beginning of the ailment which rapidly drew to a fatal conclusion.

Mrs. Hill was born near Orillia, Ont., and besides her sorrowing husband is survived by three brothers and a sister resident in Ontario. After her marriage she resided in Calgary and Kamloops, coming to Kelowna with Mr. Hill in 1915 and making her home here until 1926, when Mr. Hill was transferred to Nelson. Three years ago, Mr. Hill was again transferred, this time to Penticton.

During her residence here Mrs. Hill made many friends, who turned out on Thursday afternoon to pay their last respects, interment being made in the Kelowna Cemetery. The cortege drove all the way from Penticton. Service was held in the United Church at Penticton by the minister, Rev. R. R. Morrison, assisted by the Anglican rector, Rev. H. P. Barrett, and Mr. Morrison also officiated at the graveside. The pall bearers were: Dr. J. E. Wright, Messrs. H. B. Burtch, J. C. Taylor, J. Galsbraith, J. Dayton Williams and C. E. Campbell.

EAST KELOWNA

There will be a public meeting in the Community Hall, on Friday, at 7.30 p.m., called by the B.C. Farmers' Cooperative Marketing Association (Mr. J. Engler, Director), at which the aims of this Association will be further explained. All fruit growers are invited to attend, in their own interests.

Friends of Mr. J. E. Reekie will be glad to hear that he is on the road to recovery from an attack of pneumonia, but he is expected to be in the Kelowna General Hospital for some time yet.

For the Anglican Church Bazaar, in addition to the money collected last week, numerous cakes, bread, etc., were taken to the Rutland Cookery Stall, where East Kelowna was represented by Mrs. Thornele.

REPROVED BY GANDHI FOR EXTRAVAGANCE

When Rev. Dr. Fred B. Fisher (above), of the First Methodist Episcopal Church at Ann Arbor, Mich., telephoned Mahatma Gandhi in London to arrange a visit to America, the Indian Nationalist declared that spending \$120 in transatlantic telephone tolls was wasteful and he declined the invitation.

Mr. Peter L. Scott, of the Ayrshire Breeders' Association, was a guest of the Mayfair Hotel during the week. He made arrangements to ship the Ayrshire herd of Mrs. Marshall Benvenuto, to Hong Kong, and will accompany the shipment to its destination.

Results of the judging at the Vancouver Winter Fair have come to hand too late for publication in detail in this issue. Fruit from Kelowna and adjacent districts took all the prizes in the packing house contest, with the exception of second place. First prize was won by the Occidental Fruit Co.

TRAIN PROPOSED FROM KELOWNA TO VANCOUVER

(Continued from page 1.)

Chilliwack and other Fraser Valley points served by the Canadian National, and Vancouver, requesting that action be taken along similar lines. The text of the letter to Mr. Chappell, which was dispatched on November 30, is subjoined and is self-explanatory. The suggestion that a local train be placed in operation between Kelowna and Vancouver, with through coaches from Kamloops, which would be the western terminal for Trains Nos. 3 and 4 on the main line so long as the arrangement existed, would seem to be quite feasible, and would replace the hopelessly inadequate service now in effect without adding materially to the cost of operation under the present schedule.

Kelowna, Nov. 30, 1931.

B. T. Chappell, Esq., General Superintendent, Canadian National Railways, Vancouver, B. C.

Dear Sir,

At a meeting of the Board of Trade members held this week, the matter of the railway schedule put into effect recently was thoroughly reviewed, and I was instructed to write you, as follows:

We find that the alterations made leaves the city without any passenger train. This is very greatly deplored, as we are now used to this service and the alteration will be bound to react unfavourably on traffic generally. It will also entail some considerable hardship, as we are not now able to make connection going west except by a stop-over at Kamloops, which, in the case of sick people going to consult a specialist at Vancouver, might be a serious matter. This delay also applies, of course, to those making urgent business trips. We find that your present running schedule entails five business days for a trip to Vancouver and return, with one day only devoted to business, whereas, the distance should be covered normally in seventeen hours one way. We are now left without any accommodation for seriously sick person, or for the victim of an accident requiring special transportation and attention.

Kelowna has also lost an extremely valuable mail connection, which we were able, with your co-operation, to institute some two years ago, whereby mail was carried on your passenger train, saving considerable time in delivery and permitting us to reply to western mail the same day. This is a most important point as regards our shipping business, and affects us materially.

The Canadian National Express service also is now so disorganized by the new schedule that it has become altogether useless to the merchants and shippers.

We would point out that since the coming of the Canadian National Railway to Kelowna, and by reason of the passenger service given us since that time, the citizens of this community have given you ample proof of their good will toward the National Railway, which you will agree has been of material benefit to you in the volume of freight moved over your line, and we are not exaggerating the situation one iota when we say that the withdrawal of this passenger service will do incalculable harm to your freight and general business, and, as regards passenger transportation, it will leave us in the position in which we were prior to your coming here.

The passenger service given us heretofore had attracted a considerable amount of business to the line, and on several occasions has necessitated an extra coach or more being added to accommodate the traffic. Under the present schedule all this has ceased and much valuable good-will as well as traffic is lost, and will continue to be lost to you, until such time as a proper passenger service is re-established.

With the prospects of a hard winter ahead, and in the event of a heavy snowfall and the lake possibly frozen over, the citizens of Kelowna and district would be absolutely isolated when we take account of the fact that this community has increased in population over 50 per cent since the coming of your railroad.

In view of the facts we have here presented, we would respectfully submit that it is in the best interests of the Railway Company and a vital necessity to this city that you should establish a direct passenger service between Vancouver and Kelowna at once. Only in this way can you retain the good-will already won and hope to hold your supremacy in the handling of freight out of the Okanagan Valley.

We recognize that a passenger train connecting with your main line train at Kamloops is out of the question, and we therefore suggest a direct service from Vancouver to Kelowna and return, which would provide travelling facilities to Vernon, Armstrong, Kamloops, Chilliwack, and other Fraser Valley points. We offer the suggestion that trains Nos. 3 and 4, running on the main line summer schedule, could terminate their run at Kamloops, and through coaches be attached to the Kelowna-Vancouver train. A local train of this description would relieve the main line train of many stops and promote economy.

The views herein expressed are the result of careful deliberation after a trial of the new service you have inaugurated, and whilst we realize the imperative need for economy, we cannot emphasize too strongly the serious position in which this new schedule places your company as regards its relations to a territory covered by what you will admit is one of the best branch lines in the Dominion.

In conclusion, may we ask, in the interests of all concerned, that our suggestion be given your serious consideration.

I am, Yours faithfully,

E. W. BARTON, Secretary.

Scientists find that the radio voice is weaker when the moon is at full—a hitherto unsuspected beauty of moonlight.

Christmas Will Soon Be Here

It is not too early to buy your Christmas presents now. In fact, you will get a better selection at this time than if you leave your choosing till later.

Fine Silk Underthings for Christmas Gifts

These gifts that are personal and practical will be welcomed because of their exquisite silk daintiness and charm. It would be difficult to find a finer or broader selection of fine underthings anywhere, for there is a wealth of pretty garments which include silk Step-ins, Dance Sets, Nightgowns, Pyjamas and Bloomers. New, individual and distinctive styles.

Creme de Chine Nightgowns, Dance Sets and Princess Slips, made of good quality material \$2.25
Fine quality Rayon Bloomer and Brassiere Sets; also Vest and Bloomer Sets; each in individual Christmas box \$1.50 AND \$1.95
New Rayon Pyjamas, just placed in stock; all good modern designs \$2.95

Let Your Gift be a Pair of These Fine Gloves

The idea of fine Kid Gloves as gifts is at once appealing, since gloves are so universally appreciated. Here are plain and novelty gloves in the newest shades and effects so favoured this season.

Wool lined Cape and Suede Gloves, made by the famous firm of Fownes. They come in brown with fur cuffs. Per pair \$3.50
Washable Deerskin Gloves in natural colour; just the pullover style; per pair \$1.75
Washable French Kid Gloves, made by Trefousse, in eggshell, buff and beaver, in gauntlet style; all sizes. Per pair \$2.95 AND \$3.75

Gift Handkerchiefs

A most practical gift that is always acceptable, no matter what the age may be. There are thousands of pretty handkerchiefs here in all the various kinds—linen, cambric, plain, initialled, embroidered, lace trimmed—if you don't know what to give, visit the handkerchief section and you will be able to solve many gift problems quickly.

the right coat and hat, sir?"
Satisfied patron: "No, thanks."

WESTBANK

Mr. and Mrs. MacKay entertained a
large party of friends at a turkey supper
on Monday night.

Mr. and Mrs. T. R. Carter, of East
Kelowna, are spending a week with their
parents, Mr. and Mrs. E. C. Pavuter.

The Amusement Committee of the
Community Club met at the home of
Mrs. M. J. de Pyffer on Friday after-
noon to make arrangements for a dance
to be held in the Hall on the 4th inst.

A large audience thoroughly enjoy-
ed a play, "The Rebellion of Youth,"
put on by the Bernard Avenue Circle
of Kelowna, in the Community Hall on
Friday night. The proceeds amounted
to \$30 and were divided between the
Bernard Avenue Circle and the U.W.A.
of Westbank, after expenses were paid.
The cast of the play: Grandina of
Prologue, Mrs. Denton, Mrs. Dugald
McDougal; Mother of Prologue, Edith
Denton, Mrs. L. Dilworth; Margaret
of Prologue, Mrs. George Balfour;
Martha Denton, Miss Norma Ross;
Mary Denton, Miss Reena Ryan; Mrs.
McGilligan, friend of Mrs. Denton,
Mrs. A. H. DeMar; Miss Abbie Sany-
kossip, Mrs. L. H. H. A. Midge, Mrs.
A. Fraser; Mrs. Jimmy Cleighton, Miss
Grace Cornell; Georgia Carter, Mrs. J.
Patterson; Janet Rudder, Mrs. L.
Glenn; Josie Pepper, Miss Eva Jenkins.

BRITISH INDUSTRIAL SITE FOR B.C. LUMBER FIRM

Bromborough Port Estate, Near Liver-
pool, Attracts Attention

Mr. F. P. Burden, Agent-General for
British Columbia, accompanied by Mr.
Loren Brown, Trade Commissioner for
British Columbia, recently visited
Bromborough Dock and Estate, located
on the River Mersey, adjacent to Liv-
erpool.

The Dock, which was opened in
April last by the President of the Brit-
ish Board of Trade, forms part of the
Bromborough Port Estate, and was
built to serve industries established on
the Estate and others likely to be at-
tracted to the area.

This dock cost nearly seven million
dollars to construct, and there are 530
acres of land available for industrial
sites. It has every modern facility for
handling incoming marine freight and
for its distribution by railway, canal
or coastwise shipping to other parts of
the British Isles or to the continent of
Europe.

"There is a possibility of a site being
acquired by a British Columbian lum-
ber undertaking, but the plans have yet
to be evolved," said Mr. Burden to a
Liverpool "Express" representative.
Liverpool at present is the second port
for the importation of timber from
British Columbia.

Mr. Brown said he had come to Eng-
land to look into the timber position
and see what chances there are of ex-
tending sales of timber in this country,
which is using huge quantities of im-
ported wood.

In view of tariffs being put on im-
ports from America and other countries,
a number of firms, particularly in Am-
erica, are investigating the possibility
of establishing plants in this country,
and some of these are showing consid-
erable interest in the Bromborough Es-
tate and asking for full particulars
about it. The Bromborough Port Es-
tate is particularly well placed for
North American traffic.

"HELL'S ANGELS" IS MARVELLOUS PRODUCTION

Film Took Three Years To Make And
Cost Four Million Dollars

"Hell's Angels," spectacular film
drama which was three years in the
making at a cost of \$4,000,000, opens
today at the Empress Theatre and will
run until the end of the week. It is said
that more than 137 pilots, planes and
mechanics were used in filming the air
sequences of "Hell's Angels," and in
one scene alone fifty planes are shown
in a free-for-all combat in what is ad-
mittedly one of the greatest achieve-
ments in the history of film making.

Jean Harlow, a newcomer to the
films, and Ben Lyon and James Hall
head the cast of players in this great
drama of the air.

"The Phantom Of Paris"

"The Phantom of Paris," which will
head the bill at the theatre on Monday
and Tuesday, finds our old friend John
Gilbert, screen lover who has been sil-
ent for a long time, in a new type of
role. Not only does Gilbert play the
part of a magician but, by a trick of
make-up, also slips into the part of a
marquis, suave, cold-blooded and ruth-
less.

"The Phantom of Paris" is the es-
sence of newness in plot, in splendor of
settings and gowns and in filming. The
supporting cast of the new production
includes Leila Hyams, Lewis
Stone, Jean Hersholt and C. Aubrey
Smith, all noted actors.

"East Of Borneo"

An exciting drama of the far east is
"East of Borneo," starring Rose Hob-
art and Charles Bickford, which comes
to the theatre on Wednesday and
Thursday next. This remarkable pic-
ture, filmed partly in the jungles of the
Malay Peninsula, depicts events
among the half savage tribes of the
interior and takes a white man and
woman to the palace of an Oriental re-
jah, where they are brought under the
sinister power of the potentate. Many
interesting features of life under the
equator are shown in this absorbing
screen drama.

OUR AGRICULTURAL WEALTH

A statement issued by the Dominion
Bureau of Statistics estimates the gross
agricultural wealth of Canada for 1931
at \$7,373,559,000. Of this \$687,225,000
was represented by live stock and \$54,
852,000 by poultry on farms, a total of
\$742,077,000. The estimated gross an-
nual agricultural revenue for 1930 was
\$1,240,470,000. Farm animals sold con-
tributed \$166,630,000; wool, \$23,311,000;
dairy products, \$277,154,000; poultry
and eggs, \$95,227,000; a total of \$541,
322,000 directly from live stock and ani-
mal products.

the Queen with her elder granddaughter, Princess Elizabeth, daughter of the
Duke and Duchess of York.

KILLING OF DEER REACHES BIG FIGURES

Number Shot In American Okanagan
Is Unprecedented

Slaughter of deer on the west side of
Okanagan Lake continues unabated. It
is estimated that some two hundred and
seventy bucks have been taken from the
vicinity of Deep, Bear and Trepanier
Creeks in eleven days. Many deer
fell over the last week-end, and the
number of sportsmen who have hunted
unsuccessfully is small indeed. Possi-
bly the prospects of facing a hard winter
have sent many men into deer territory
to procure a good supply of meat for the
cold weather. Venison will grace
many tables this winter, at any rate.

Never in years have so many deer
been shot in the state of Washington as
this season. An item from Okanagan,
which appeared in the Penticton Herald
last week, tells the story:

"With conservative estimates placing
the number of deer slaughtered in the
county during the 12 days to November
14 at 1,500 and with unnumbered scores
more bucks, wounded by inexperienced
hunters, roaming the woods doomed to
die before the winter is over, the hunt-
ing season has drawn to a close.

"According to game officials, this
year's kill is a record which has never
before been approached, and experi-
enced hunters declare it will not again
be equalled for the reason that the deer
herds will never recover the losses sus-
tained this season. Last year's kill was
600.

"Many hunters who failed to bring
back their bucks brought back stories
of having wounded one or two, while
one out-of-town mimic related with
apparent pride a story of having knock-
ed down three bucks, all of which got
away.

"There is little doubt that scores of
these wounded bucks will die within the
next few days while many more will
starve or freeze to death in their weak-
ened condition before the winter is out.
The old-time hunter who would trail a
deer down if he 'nicked' him has almost
disappeared from the hills, his modern
successor being either too hurried or
too ignorant of woodcraft to find his
kill unless the animal is brought down
with the first shot.

"The pushing of good roads back into
the mountain fastnesses of the country
is responsible in a large measure for the
enormous slaughter this year. It is
now possible for the rank amateur to
drive their automobiles back into the
heart of deer country which until re-
cently was never penetrated save by
hardened, experienced huntsmen."

REPARTEE

"Niggah, I's gonna' mash yo' nose
all ova yo' face; I'se goin' to push dose
teeth down yo' throat an' black both
yo' eyes—et cetera."

"Black man, you don't mean et
cetera, you mean vice versa."

GLENMORE

The annual meeting of the Glenmore
Fruit Growers was held in the School
on Thursday, Nov. 26th, with Mr. G.
H. Watson, President, as chairman.

After ordinary business had been
transacted the election of officers was
proceeded with. Officers for the ensu-
ing year are: President, Mr. C. Atkin;
First Vice-President, Mr. G. C. Hume;
Second Vice-President, Mr. Charlie
Henderson; Third Vice-President, Mr.
Lewis Marshall; Secretary, Mr. E.
Snowsall.

A very hearty vote of thanks was ac-
corded the retiring President and Sec-
retary for the good work done by them.
A very full discussion took place on
the advisability of forming a local of the
B.C.F.G.A., but it was decided to re-
main as at present.

Mr. MacDonald, President of the
B.C.F.G.A., who was in the district
kindly attended and gave some useful
information.

It is hoped that every fruit grower of
Glenmore will join up with the Associa-
tion and make it a real go.

Mr. S. Pearson left on Monday for
the Coast. Mr. W. R. Reed, with his
son Stanley, left on Tuesday. Messrs.
Pearson and Reed are irrigation dele-
gates to Victoria. Stanley will receive
further treatment while at the Coast.

Miss Betty Snowsall, of Tranquille,
is spending a vacation with her parents,
Mr. and Mrs. E. Snowsall.

The Guild met for the annual meet-
ing at the home of Mrs. E. W. Fer-
guson on Tuesday afternoon, with a
good attendance. The newly elected of-
ficers are: President, Mrs. Macro; Vice-
President, Mrs. E. W. Ferguson; Sec-
retary, Mrs. E. Snowsall; Hospital re-
presentative, Mrs. E. W. Ferguson;
Floyer Committee, Mrs. A. Loudoun.

The ranch house, one of the oldest
landmarks of Glenmore, occupied by
Mr. Percy Cookson, was totally des-
troyed by fire on Wednesday evening,
about six o'clock. Mr. Cookson saw
the kitchen in flames from the barn,
while Mrs. Cookson was absent in
town.

Apart from some silver and papers,
very little was saved, as the building
burnt rapidly. The sympathy of the re-
sidents is extended to them.

One can advise comfortably from a
safe port.

tier Want Ads.

RAMSAY MACDONALD AMONG HIS AIN FOLK

Prime Minister Ramsay MacDonald and his daughter Ishbel were given
a tumultuous welcome from their "ain folk" at Elgin and Lossiemouth when
they arrived there for a short holiday before the opening of parliament. Rail-
way barrows were hastily lined up at Elgin to serve as an impromptu platform
from which the Prime Minister addressed the large crowds that gathered to
greet him. School children hauled his car through the streets of Lossiemouth.
The above photo shows the Prime Minister in conversation with Lord Provost
Whittit at Elgin.

BUILDERS' SUPPLIES

— AND —

Coal and Coke

Magistrate G. F. Guernsey, of Pen-
ticton, sitting as Juvenile Court Judge
recently, bewailed the fact that the
clause in the Juvenile Act which al-
lowed the presiding judge to impose a
good sound thrashing as punishment
had been abolished. In dealing with
several boys, he admonished their par-
ents to give them a good licking.

"Run upstairs and wash your face,
darling. I think grandma wants to take
you driving with her."
"Hain't we better find out for cer-
tain, Mummie?"

An item from Rock Creek, published in
the Penticton Herald, states: "Mr.
Hardcastle, of Kelowna, who is visit-
ing friends in Kettle Valley, went out
hunting last week and had the mis-
fortune to get lost in the fog near
Davis Lake. He was compelled to
spend the night out on the mountain.
The morning after his experience he
succeeded in finding his way back to
his friends, who had become much al-
armed and were preparing to explore
the district in search of him when he
appeared on the scene."

Smith—It is not the cost of the car
that worries the average motorist, but
the upkeep.
Jones—And some times the turnover.

SEA CADETS

Kelowna Corps 1358
"Grenville"

Well, here we are in print again at
last and we have some swell news for
a start. Our annual "Chummy Party"
is to take place in the Orange Hall on
Friday, December 11th. I do not need
to ask the Cadets to be sure and come,
because we know they will be there
with bells on and big appetites, but I
do want the parents to know that we
want them to turn out 100 per cent
strong.
If our jolly tars put on the turns they
have promised, shiver me timbers but
she'll be some night! Jutland won't be
in it. Now to serious business.
In future no Cadet will be excused
from wearing uniform on parade unless
a reasonably good excuse is given. It
is only one night a week and if we can-
not give ourselves heart and soul to the
corps for that night we shall never
accomplish much. The wearing of the
naval uniform is an honour of which
we should be justly proud and is a
special privilege granted to Sea Cadet
Corps. Also it is mainly owing to the
generosity of the local business men
that the Kelowna Corps are in posses-
sion of these uniforms, so come on,
boys, play the game for all we are
worth!

Tuesday night's parade was taken up
mainly with physical drill and arrange-
ments for our "Chummy Party" pro-
gramme.
Probationer Gorse passed his proba-
tioner's compass test and Cadet New-
ton has passed his Cadet's compass test
with the splendid score of 93 per cent.
We had present 23 Cadets and 2 officers.
Our next parade will be on Tuesday,
Dec. 8th, in the Trec H Club, so let's
all turn out and make our final arrange-
ments for the big party.

OLD FLATFOOT.

An old-timer who gave his name to
part of the Okanagan died recently
in the east. He was Ed. Garnett, form-
erly of Summerland, and his death
came at Brantford, Ontario, at the age
of 78. The late Mr. Garnett came to
Summerland in the year 1890, long be-
fore the establishment of a community
there, and lived in what is known as
Garnett Valley.

NationalTHE CORPORATION OF THE
CITY OF KELOWNA
LOCAL IMPROVEMENT
BRANCH SEWER

Take Notice That:

(1) The Council of The Corporation
of the City of Kelowna has con-
structed as a local improvement, a
branch sewer on the lane in Block Five
(5), in Registered Plan Four Hundred
and Sixty-two (462), from Water Street
to Lot Three (3) of Block Four (4),
in Registered Plan Four Hundred and
Sixty-two (462), and on the lane be-
tween Blocks Four (4) and Five (5) of
Registered Plan Four Hundred and
Sixty-two (462), from Eli Avenue to
Leon Avenue.

(2) The cost of the work is
\$1,431.52, of which no portion is to be
paid by the Corporation. The annual
special rate per foot frontage is 16.236
cents. The special assessment is to be
paid in ten annual instalments.

(3) The estimated lifetime of the
work is ten years.

(4) A Court of Revision will be
held on the 14th day of December,
1931, at ten o'clock in the forenoon, at
the Council Chamber, Kelowna, B.C.,
for the purpose of hearing complaints
against the proposed assessments or
the accuracy of frontage measurements
and any other complaint which persons
interested may desire to make and
which is by law cognizable by the
Court.

G. H. DUNN,

City Clerk.

Kelowna, B.C.,
November 10th, 1931.

RUTLAND

About twenty growers attended the
Farmers' Institute meeting in the Hall
on Tuesday, Nov. 24th. This was the
Institute's first meeting of the season.
Mr. R. B. McLeod, President, occupied
the chair, and after reading and
adoption of the minutes called upon
Mr. J. Wilcox, of East Kelowna, to
speak.

Mr. Wilcox gave an interesting de-
scription of the work being carried out
at the Government Experimental Sta-
tion at East Kelowna in regard to
drought spot, corky core and the back,
kindred diseases, particularly prevalent
in Macs. An interesting discussion
developed at the close of the meeting,
each grower contributing his own ex-
periences and opinions.

The Athletic Club held a very enjoy-
able whist drive and dance in the Com-
munity Hall on Thursday evening last.
About twelve tables were in use for
the whist drive, many more young peo-
ple arriving later for the dance, bring-
ing the total number in attendance to
about 75, enough to make a very pleas-
ant and sociable crowd but not en-
ough to make the evening a profitable
one for the Club. Winners of the whist
drive were: ladies, first, Miss I. Laws;
consolation, Mrs. E. Caldwell. Gent-
lemen: first, J. Pow; consolation, J.
Holitzki. Music for the dance was
supplied by Messrs. Symonds, Dunn
and Treadgold of the Kelownians.

The Badminton Club paid a return
visit to Okanagan Centre on Thursday
evening for a tournament with the Cen-
tre players. The Rutland team was
badly defeated by 21 games to 3 on
this occasion.

The annual meeting of the Rutland
Hall Society was held in the small
hall on Monday evening, Nov. 30th,
with an attendance of about 30. The
report of the Secretary-Treasurer was
read and adopted without much com-
ment, the gross amount handled being
in excess of \$1,200.00.

Election of officers followed, the ma-
jority of the old committee being re-
elected. Following are the names of
the members: Messrs. B. Hardie, B. E.
Hardie, J. R. Beale, A. E. Harrison,
F. L. Fitzpatrick, A. L. Baldock, A. W.
Gray, and Mrs. E. Muford, Mrs. A.
Humphreys, Miss E. B. Harrison and
Miss F. McDiarmid.

A hearty vote of thanks was ex-
tended to the members of last year's
board.

Some discussion took place as to the
use of the hall on Saturday nights for
basketball, the matter being left to the
incoming board finally.

At a meeting of the new committee,
held after adjournment of the general
meeting, Mr. B. Hardie was re-elected
President; Mr. A. E. Harrison, Vice-
President; Mr. J. R. Beale, Secretary-
Treasurer and Mrs. E. Muford, chair-
man of the Entertainment Committee.
Use of the Hall on Saturday nights
was agreed upon, and one or two other
matters were also dealt with.

The Intermediate A and B teams
journeyed to Oyma on Monday even-
ing to engage the Oyma junior team
and Senior C in friendly contests. The
B team won by the handsome margin
of 42 to 24, J. Fisher being the heavy
scorer. The A team lost to Oyma
Senior C team by the equally one-sided
score of 16 to 40. H. McIvor refereed
both games. Return games are billed
for Monday, December 14th.

Mr. J. H. Thornton made a hurried
trip to the Coast on Wednesday, on
receiving the sad news of the death of
his brother-in-law, Mr. Taylor, of Gal-
iano Island. Mr. Thornton returned in
time to resume his duties at the school
on Monday. Mrs. F. L. Irwin took
charge of Mr. Thornton's class during
his absence.

Book lovers will be glad to know
that a home has been found for the
travelling (very) library, Mrs. Philip
Graf having consented to take charge
of it.

The Women's Institute meeting for
December will be held on Thursday
next, December 10th, instead of on
the Wednesday, owing to the hall be-
ing in use by the Dramatic Society in
preparation for their play that evening.

THE MODERN
VILLAGE BLACKSMITH

(Sunday Pictorial)

Under a spreading chestnut tree
The village smithy stands.
Behind a row of petrol pumps.
With all the well-known brands.
Where greasy men with oily grins
Take money with both hands.

Week in, week out, from morn to
night
Your empty tank they'll fill.
They'll change a tire or turn a nut
With plenty of goodwill.
But all the same, you'll later find
It's all down on the bill.

They'll shake their heads and sadly say,
You'll need your valves reground.
They'll say rude things about your
plugs
In manner most profound.
In fact, your engine, brakes and gears
Are anything but sound.

The boss comes out and hangs about.
And beams upon his boys.
He hears them tell you all these yarns:
It makes his heart rejoice.
They'd say the same of any car.
From flivver to Benz-Royce.

He wants to overhaul your car
And let you pay the price.
And let some other thing go wrong.
To overhaul it twice.
He really wants a steady job.
That would be paradise.

Oiling, decoking, adjusting,
Onward through life he goes.
Each morning sees some job begun.
But never sees its close.
Something commenced and left half-
done.
Has earned a night's repose.

"My Gawd," cried the drunk as he
crashed into the gas station, "I've
struck oil."

General H. Kanaya, chief of the Japanese General Staff, at the front in
Manchuria.

OKANAGAN MISSION

A meeting held under the auspices of
the Interior Co-operative Association
took place at the School last Friday to
discuss a scheme for the disposal of
waste products. It was not well at-
tended, and was poorly attended. Con-
sequently another meeting has been ar-
ranged for Wednesday, Dec. 9th, at 8
p.m., at the Bellevue Hotel, given under
the auspices of the Women's Institute.
Notices giving further details will be
posted at the Store and elsewhere.
Members of the Institute and friends
will be welcome, but the dance is primar-
ily intended for the younger generation.

A fish weighing 21 lbs., 2 ozs. was
caught recently off Varty's by Capt.
Goldsmith. Congratulations!

On Friday night, Dec. 11th, there will
be a dance for young people, at 8.30
p.m., at the Bellevue Hotel, given under
the auspices of the Women's Institute.
Notices giving further details will be
posted at the Store and elsewhere.
Members of the Institute and friends
will be welcome, but the dance is primar-
ily intended for the younger generation.

The usual monthly meeting of the
Women's Institute took place on Tues-
day, Dec. 1st, at Mrs. Bell's. There
was a good attendance and the neces-
sary business was put through quickly
to allow time for Mrs. Donald Black's
address on Korea, which she had kind-
ly promised to give on this occasion.

After the minutes had been read and
adopted, a suggestion was brought for-
ward by the President, at the instance
of the Entertainment Committee, that
a Young People's Dance be held before
Christmas. This led to a good deal of
discussion of pros and cons, but it was
finally agreed to give a dance on Dec.
11th at the Bellevue Hotel, on the un-
derstanding that the young people
themselves would undertake to sell the
tickets. The Secretary undertook to
put up posters announcing the dance,
and the Institute agreed to do the cat-
tering and hire the hall and the orches-
tra.

The President then presented Mrs.
Farris with a leather handbag as a
small token of appreciation on the part
of her fellow members of all the work
she has done for us as a Director since
the formation of our Institute.

Mrs. Black then arrived and tea was
served, after which the address on Korea
commenced and was listened to with
much pleasure and interest. Mrs.
Black herself wore a Korean costume
and her little girl, who was present
throughout, was dressed as a little Korean
in the gayest of colours. Later, Dr.
Black came in, and he and his little son
put on the costumes favoured by the
male sex in that little known land. Mrs.
Black besides giving a vivid picture of
the domestic life of these people—and
a very hard life it is, especially for the
women, explained very clearly the re-
lations between Japan and Korea at the
present time, showing that the domina-
tion of Japan, though naturally an-
tagonistic to Korea, has nevertheless
been beneficial to the people in many
ways.

A vote of thanks to Mrs. Black was
unanimously passed at the end of the
meeting.

But the state that does most to pro-
vide grounds for divorce is the state of
intoxication.—Los Angeles Times.
Yeah? How about the state of matri-
mony?—Arkansas Gazette.

LEARN MORE

ABOUT BEEKEEPING
(Experimental Farms Note)

That a bee is highly proficient in the
art of stinging offensive people and
when not so engaged is stinging some
one else seems to be the extent of some
people's information regarding this in-
dustrious insect. It is also within the
bounds of possibility that many who
are interested in the art of beekeeping
do not know of some of the wonders
of the hive. A colony of bees tucked
away in the back corner of some one's
garden is an insignificant looking
thing, but do you know that during the
summer months the adult population of
that little box is approximately 100,000
and that between 2,000 and 3,000 new
bees are emerging from their cells every
twenty-four hours, also that between
12,000 and 13,000 baby bees are being
fed every minute of those twenty-four
hours. In this densely populated box
there is one bee (the queen), that is
quite different from all the others and
the only work she does is to lay eggs,
sometimes at the rate of 3,000 in
twenty-four hours. The queen lays
two kinds of eggs, one that produces
the worker bee and one that produces
the drone or male bee. Another strange
fact is that the young larvae hatching
from the eggs which produce the work-
er bees will, if placed under certain
conditions, become queen bees; this is
the secret of queen breeding. The work-
er bees are all undeveloped females, yet,
in spite of this handicap, the bee colony

is the best organized community in th

world.
Watching the entrance of the colon
during the summer months, one parti-
cularly notices a number of large det-
looking bees flying in and out and mak-
ing a considerable noise as though try-
ing to impress the world with their im-
portance. These are the drones (males,
but the truth is they do no work nor
are they capable of feeding or di-
vending themselves, for they are fed by
their sisters and they carry no stings.
This might be considered an ideal ar-
rangement were it not for the fact that
when the honey flow is over these pot-
fellows are driven from their homes to
die of hunger and exposure.

The death rate, like the birth rate, of
the colony is very high, for during the
summer months the worker bees only
live for about six weeks, while during
the winter they may live for seven or
eight months. The queen, however,
may live for several years. These vic-
tious stinging little insects were respon-
sible for adding over thirty-one million
pounds of honey to the wealth of Can-
ada during the year 1930.

For further information about bee-
keeping, write to the Central Exper-
imental Farm, Ottawa, for Bulletin
No. 33, "Bees and How to Keep
Them."

C. B. GOODERHAM,

Northern Electric
VACUUM
CLEANER

What?

Two SPEEDS!

A speed for average work and a high speed for heavy
work are among the newest improvements on the famous
Northern Electric Vacuum Cleaner. Greater "pick-up" is
as necessary in the modern vacuum cleaner as in the modern
motor car. Even its low speed is faster than the highest of
any other cleaner, and it is the only two-speed vacuum
cleaner on the market.

Heavy rugs, upholstery and hang-
ings yield their dust easily, quick-
ly and safely to the compelling
suction of this high-speed vacu-
chine. You get the same pleasure
from controlling its power at a
touch that you get from driving
any perfect piece of mechanism.
It makes housework light and

pleasant. The Northern Electric
Vacuum Cleaner is made in Can-
ada and carries the Northern
Electric "Approved Appliance"
SEAL—which means it has passed
every mechanical, electrical and
performance test imposed by the
Northern Electric Company on
all its products.

Go today to any of the retail stores listed at the left,
and see this Northern Electric Vacuum Cleaner
and the other Approved Appliances illustrated here.

BASKETBALL

Senior Teams Meet Defeat At Penticton

The two local Senior teams visited Penticton last Saturday evening and both arrived home with their first defeat of the year.

Kelowna Girls Experience Hard Luck
The first game between the Penticton Senior Girls and our own quintette was a real battle with neither team having any great advantage over the other at any time during the game, but ill luck came to the Kelowna visitors. With only about four or five minutes left to play, Captain B. Carruthers had the misfortune to sprain her ankle and this demoralized the team slightly and the southern lassies ran in several baskets to win the game 17-12. This was a splendid game and both teams are about the same strength. All the Kelowna girls played a good game and had it not been for their misfortune, might have still had a clean sheet.

Men's Game Is Rough
The men's game was a rough affair with several of the boys receiving injuries. The Kelowna team were without the services of their star man, Chas. Pettman, and this very likely had something to do with the result. The first period was in favour of Kelowna, with them having the advantage of six points at half time. However, after the interval it was a different story and the fighting green and white band staged a rally which kept them within striking distance and finally put them on top when full time came by a score of 28-26.

On the play Penticton seemed to have the advantage, working a neat combination and this, coupled with deadly shooting on long shots, won them the game. Though, had Kelowna been able to click as they should, it would have been quite a different story.

First Visit From Coast Team
Fans will have the opportunity of seeing the first Coast team in action this Friday evening, when the Highway Fur team from New Westminster will do battle with the locals. This team has many of last year's Intermediate A Young Adanac players, who will be remembered as one of the snappiest teams ever to step on a local floor when they were here last February in the play.

The first game will see Salmon Arm in action for the first time on our local floor. This is a real good card, and those who come won't be disappointed. So now, you fans, come along to the Scout Hall on Friday evening and give your teams a boost.

Don't forget to keep New Year's Eve open for a big basketball night.

VOLLEY BALL

League Standing At The End Of The First Round

	P.	W.	L.	Pct'd
K. G. E.	6	5	1	0
Business Men	6	5	1	0
Gyros	4	3	1	2
Church	5	3	2	1
I.O.O.F.	5	2	3	1
Teachers	6	1	5	0
Rotary	6	0	6	0

The best games of the first round took place on Monday last, when the Business Men had to go all out to take three games out of four from the K.G.E., who are playing in mid-season form. The bare result of the games does not indicate the strength of the K.G.E., for, although they were beaten three out of four, they were only down three points on the total score for the hour's play.

Paddy Woods, who is a newcomer in volleyball ball, turned in a wonderful game for the Business Men and makes a fitting team mate for Ced. Boyer, who is a star in his own right. The K.G.E., while perhaps having no outstanding players, are without doubt the best balanced team in the league and will take some beating.

Unfortunately, the sedate Rotarians, finding the pace too hot, have withdrawn from the league, thus repeating their action of last year.

Second Round Schedule

Dec. 7th—Gyros vs. K.G.E.; B. M. vs. Church.
Dec. 12th—I.O.O.F. vs. B. M.; Church vs. Gyros; Teachers vs. K.G.E.
Dec. 14th—Church vs. I.O.O.F.; B. M. vs. Teachers.
Jan. 15th—K.G.E. vs. Church; Gyros vs. I.O.O.F.; Church vs. Teachers.
Jan. 18th—B. M. vs. Gyros; K.G.E. vs. I.O.O.F.

Jan. 22nd—Teachers vs. I.O.O.F.; K.G.E. vs. B. M.; Gyros vs. Teachers.
As will be seen, no league games will be played between December 14th and January 15th, but the hall will be available on the regular days for practice games and games with outside teams, and in all probability, during that time, Vernon will be invited down for a series of games.

OMNIVOROUS TROUT DEVOURS BIG APPLE

How Did The Fish Manage To Swallow The McIntosh?

An apple a day may keep the doctor away, but a McIntosh Red is not guaranteed to keep an Okanagan Lake fish alive and well. Not when Jock Stirling goes fishing, anyhow.

Fishing at Okanagan Mission over the week-end, Jock pulled in a twelve-pound beauty. When an "operation" was performed on this particular trout, it was found to contain a big red Mac measuring some two and a half inches and two kickinies. The apple was wedged in between the two small fish.

In addition to the lake denizen with the insatiable appetite, Mr. Stirling caught a sixteen-pound trout on Saturday.

Mr. H. C. S. Collett was successful in landing a twelve-pounder over the week-end.

Capt. Goldsmith, fishing off Mitchell's, recently, landed twenty-two pounds.

Scientists say the lower part of the face, not the eyes, betrays the thoughts. Especially if the lower part of the face is opened.

JUST CHATTER

(By Ex-Kelownian)

At the Crusader-Shores basketball game this week, noted "among those present," as the newspapers say, were Turk Lewis and Bert Johnston.

Kelowna had a gala day of its own at Varsity on Friday last. Bob McClelland was seen doing his stuff on the Intermediate B team, and Bill Lucas trotted out for the Senior B. Bert Fiddes was in charge of the Durkins, who were playing that night, and another interior boy on the floor was Ray Turner, of Kamloops.

Miss Evelyn McDonald was a most welcome visitor at Chalmers Church last Sunday. She attended the Young Peoples, and extended the greetings of Kelowna.

Now about the relative chances of Kelowna Senior B, in the hoop game. Last Saturday's game was a fair example of the calibre of the respective teams, as the Crusaders and Shores are the best on the circuit. Can Kelowna hold their own? This is a question that should be foremost in the mind of every Kelowna fan, and the writer is positive that Kelowna can and has its greatest opportunity this year to come right forward into the forefront of basketball. Kelowna has tried many years and has had miserable luck many times, but if the boys keep in strict methodical training, and are able to secure the opposition necessary to round out the team and familiarize them with the various types of play, there is no reason why they cannot come out on top.

Varsity were interested spectators at the game, and are feeling not a little peeved at the attitude of the Vancouver & District League in prohibiting exhibition games with them. This will greatly handicap the Varsity, as every team requires opposition, and the opposition they will receive in the G. V. A. league will be of a weak Senior B calibre.

Crusaders, true to their past, did not serve up that brilliant brand of ball in the crisis. Shores had it over them all the way. Both teams play a nice defensive game, their ball handling and pivoting are good, but their shooting is far below Senior A calibre. Not once during the game without number both sides failed miserably in simple efforts, and their foul shooting was deplorable. Both play the corners and the Crusaders play an all attack or all defence play. They leave no guard behind when they are attacking, and this proved their downfall, because several times the fast Shores got away on them.

Not having seen Kelowna this year, it is impossible to compare their work, but judging from past performances and knowing their capabilities, one would say that Kelowna has every opportunity of making a most creditable showing. It is good news to learn that Turk Lewis is endeavouring to arrange games. According to his latest report, the possibilities look like Crusaders and Province. This should be a fair test for the home brews, and, whether they win or lose, should give them an idea of where they stand, and invaluable experience. Turk must have been interested in noting the open game played. There is no bodying, and personal contact of the slightest kind is called and guarding from the rear severely called.

NOVEL SERMON SUBJECTS AT FIRST UNITED CHURCH

How Application Of The Golden Rule Revolutionized An Industry

The sermons at First United Church on Sunday morning and evening will be quite novel in character. The two messages will constitute a single subject and will tell a story which is possibly the most romantic connected with the Gospel of the Kingdom of God and ordinary business enterprise.

The first half of the story will give a sketch of the life of Arthur Nash, who is known as "Golden Rule Nash," and the latter half will reveal how this man through the application of the Golden Rule revolutionized a great industry. The message is one of the most interesting for our times that it would be possible to imagine.

Last time is never found again.—Benjamin Franklin.

Well, the bandit business seems to be holdin' up.

CANADIAN GIRL WINS DISTINCTION IN FENCING

Fencing is the finest sport in the world according to Miss Frances Campbell, of Toronto, who has the distinction of having brought to Canada a coveted honour. She is the first Canadian woman to obtain the brassard d'or, an official mark of distinction and skill presented by the Salle Gardere of Paris for skill in fencing.

OIL OPERATIONS REACH FIRST ANNIVERSARY

(Continued from page 1)

inability and lack of geological advice. "We do not appreciate the fact that practically every producing field of note took many long years and many drilling operations before it was successfully brought in."

"It has not been impressed upon us that because of our population and other physical adjuncts, we are a splendid market for the present production of the large oil companies have in other producing areas, and because of our consumptive qualities the large oil companies are reluctant to have producing fields opened here."

"Every person who listens to and respects propaganda that there is no possibility of petroleum production in this region is merely becoming the unwitting tool of the interests that do not want production here."

"First we must educate our own people to the value of its potential petroleum resources."

"Then the world will know."

"And then—try to hold back development!"

What Oil Has Done For Los Angeles

It may be added that most of the wonderful recent growth of Los Angeles is due to development of its petroleum resources. In 1920 it had its much-advertised climate, moving picture industry, scenery and a population of 500,000. Then it began to develop its adjacent petroleum resources in the face of much scepticism, especially as to Signal Hill, the world's largest producer, which is in Los Angeles' back yard, as it were. In rapid sequence other producing fields were discovered, and as the result, Los Angeles is now offering natural gas fuel for power purposes at the very low rate of 15c per thousand cubic feet, she has thousands of factories and her population has increased to 1,230,000.

Difficulties Encountered In Development

The majority of oil drilling enterprises in a new field encounter mechanical and other difficulties and the Kelowna undertaking has had its share of "grief." All went smoothly at the outset until considerable depth had been attained, but, in placing the twelve-inch casing during January last, a lower length was jammed by rock and a delay of twenty-two days was involved in its removal and the substitution of new casing. In February, at 955 feet depth, a seam of coal was encountered and caving conditions brought another delay of ten days in order to cement the bore. On February 27th, a carload of ten-inch casing arrived and the hole was cased to a depth of 1,010 feet. On account of there being no supply houses in the district and no facilities for the special

repair work required, work had to be suspended for two weeks during April while new drill stems were being procured from Montana. The most serious delay occurred in June, when caving conditions again made it necessary to run eight-inch casing to a depth of 1,700 feet. Trouble was encountered in placing the casing, and drilling was suspended for nearly two months. Eventually the procuring of hydraulic jacks, a casing spear and high water pressure pump overcame the difficulty and drilling was resumed on August 25th. Since that date good progress has been made, 570 feet depth having been gained in the past three months, with a short delay in October to renew the drill stem.

Engineer Reviews Progress

In a statement to the Directors compiled in connection with the anniversary of the commencement of drilling operations, Mr. Julius Rickert, M.E., F.R.C.S., resident geologist for the Company, reviews the progress made during the year. He recalls that on the day of spudding in he expressed confidence in the area as a productive one and made the forecast that it was highly probable that oil or gas bearing strata would be tapped at a depth of 2,500 to 3,000 feet, with the saving proviso that, in drilling the first well in a new field, the exact depth for production could not be defined exactly by any geologist. However, he considers his prediction justified, as the drill is now piercing a cretaceous marine limestone with heavy showings of gas, forcing bubbles of gas through a column of 2,225 feet of water in the bore to the surface.

Mr. Rickert points out that the water-filled bore exerts a tremendous pressure on the bottom, against which the gas forces its way to the surface. He reckons the pressure at 965.65 pounds per square inch at the bottom of the bore, which prevents the gas showing in the quantity it would do if the bore was dry. In order to stop the flow of water, it would have to be shut off by casing and cementing, and this he recommends should be done at a depth of 2,500 feet, when it is proposed to lower six-inch casing to the bottom and to continue drilling until production in quantity is reached. It is the opinion of Mr. Rickert that a more porous stratum will be reached with greater depth, which will produce gas in profitable quantity, and he urges that old and new investors collaborate with the Company in furnishing the means to continue the work and place the undertaking upon a remunerative basis.

With so much already accomplished, and the favourable showings at the depth reached, it would seem almost a disaster if the work should suspend now for lack of funds with which to carry it on, and it is to be hoped that all public-spirited people who desire to see the Okanagan progress will do all in their power to aid the undertaking to carry out a thorough test of the ground.

The Practical GIFT STORE

SURELY THIS IS THE PLACE TO PURCHASE YOUR GIFTS FOR THE WHOLE FAMILY AND ALSO FOR THE HOME ITSELF

FOR THE HOUSEHOLD

Lovely Kenwood and O.V. Blankets and Throws. Lovely Irish Linens, also small pieces in Madeira Ovals, Tray Cloths, Squares, Towels, Tea Cloths, Runners, Serviettes, and Pillow Cases.

FOR THE LADIES

New Lingerie, the famous Woods Lavender Line in Ensembles, Knickers, Vests, Pyjamas, Slips and Gowns. Also a lovely range of Kimonos. The new Christmas Hosiery is here in profusion. Mercury Mills and Kayser, also Jaeger in fine wools and silk and wools.

DENT'S GLOVES

Everything in Gloves in all the new leathers and fabrics. Also a real smart line of wools. Our fur lined Mochas and Capes at \$4.25 are real value and make lovely gifts.

HAND BAGS

From Julian Sales are the last word. Inside zippers are the new feature for this season. Blacks, browns, tans and beige at \$3.75 to \$6.50.

NEW NECKWEAR

Hand painted Scarves, Squares, Ascots and oblongs in an endless variety of colourings.

HANDKERCHIEFS

—and more handkerchiefs. The range is most complete and comprises Irish, Chinese, British and Swiss. Boxes from 20c to \$1.50; loose at from 5c to 75c, these we can also put into gift boxes. Space will not permit description of all the lovely things for infants, children and boys. But we have plenty of choice.

GIFTS MEN APPRECIATE

Shirts, style authorities agree, are the background in the plan of man's haberdashery selection. A fine shirt, then, is the logical starting point in choosing his gifts. Add a tie, hose, kerchief or suspenders (any one, two or more), all blended together to appeal to his taste and personality. There, you have a Gift Blend; Individual and Practical.

A Tie to his taste and a Kerchief with his initial, separately or as a blending combination, offer an expressive way to convey the Christmas sentiment. Neckwear silks of heavy richness, many loomed overseas, will excite his pleasure. Kerchiefs equally fine, show the newest thoughts in design. Our collections of both are delightfully complete.

It is both right and proper to indulge a man's taste for vivid colour, especially in Forbelt Pyjamas—so perfectly colour blended. We have them in contrasty combinations of solid tones, or modern patterned effects. Particularly do we recommend these Forbelt Pyjamas, because of the popular new Forbelt feature which combines style with comfort.

Alert men of this fast-stepping age appreciate such Hose as these. Rarely do practical usefulness and smart style combine so lavishly—Half Hose and Golf Hose in satisfying selections. For the man who prefers to wear Shorts the year 'round, we suggest these made with the smart Forbelt feature.

SLIPPERS

We have a fine range of these for the wee tot up to the man who wears 12's. PACKARD and JAEGER for the women very daintily and serviceable to match the new kimonos. Also a full range of the famous Biffi Sports for men—greys and fawns, elastic taped domes, very serviceable.
